SAVELLI

**Australian made handbags**

## ABOUT SAVELLI

SAVELLI was created with the intention of combining European fashion and designs, with the quality of Australian manufacturing. In order to do so, the French fashion designer ensured that only Australian manufacturers and suppliers were engaged in the production of SAVELLI's first collection.

The result is a brand like no other.

Being wholly designed, owned and operated in Australia, SAVELLI offers a collection of handbags that are purposely limited in numbers to ensure the uniqueness and high quality of each handbag.

The 2014 launch collection, inspired by the different origins and travels of the designer, proves that true elegance is timeless simple and refined.

100% Australian made
