

FD UGG
AUSTRALIA

SPRING / SUMMER 2014

The FD UGG Story...

At FD UGG, we pride ourselves on making the very best Australian UGG boots.

As a local company with more than 30 years in the business, we've always used the best designers and sourced cutting edge materials. This has enabled us to bring you the most fashionable range of quality boots and slippers - those that fit perfectly from the moment you put them on.

Our commitment to developing new styles that incorporate innovations in footwear support makes us a clear market leader in terms of colour, design, comfort and durability.

While many new competitors have entered the market and some other well known players have left, we're still going strong. Not only have we grown locally, we have led the way in developing market demand overseas. In fact, FD UGG was the first supplier of Australia's iconic footwear to major department store chains in the USA.

We feel sure that our success is due to: our excellent customer service; the uniqueness of our sheepskin; the artistic talent of our design team; the comfort and support of our pre-flexed insole; our no-slip safety and durability of our high-density EVA soles. Indeed, it's what makes FD UGG the exception and not the norm, seeing fashion footwear trends mirror our own.

Developing and maintaining a history of innovation in the UGG boot industry takes dedication, imagination and passion. This is the story behind FD UGG Australia. And it's resulted in a brand of style and excellence.
