# OUR PRODUCTS

## LIFETIME BED FRAME STRUCTURAL WARRANTY

Dogslife Beds have been handcrafting heavy duty galvanised steel dog beds and hand machine sewn covers and mattresses for over 19 years.

Our warehouse is located at Southport on Queensland's Gold Coast and we offer retailers competitively priced Australian Made Dog Beds with a lifetime structural warranty on all bed frames.

Heavy duty beds come in both fixed and flat pack, with or without covers.

Replacement covers are available in heavy duty flea free mesh or hessian covers. Fixed frame covers slip over the bed and are sealed with velcro whereas the flat pack replacement covers are hand sewn and the removable bed slat is inserted into the cover before assembly.

Dacron filled mesh mattresses are made using 20mm light weight washable dacron and come in a variety of colours and suitable for both fixed and flat pack beds.

Our extra thick 50mm foam mattresses are available with heavy duty mesh or hessian covering.

All mattresses are hand crafted using flea free, high quality materials and include bed tie-downs.

Mesh covers and mattresses are dispatched in a variety of colours and are delivered packaged.

Flat pack bed frames with mesh covers come boxed.

Specific colour orders for replacement covers and mattresses is available however a surcharge applies.

Do not hesitate to contact us for any specific requirements.
