Excalibur Cutting Heads

- Can be rotated 360°.
- Supplied on electric, cordless or compressed air power units.
- Require one hand to operate leaving the other to hold the material
- Clear visibility to cutting points and lines.
- Give full control and manoeuvrability.
- Cut with ease, speed and power.
- Compact to give access to usually inaccessible areas.
- Saves professional time and labour costs.
- Light, well balanced with a firm, safe grip.
- Simple swap between Excalibur cutting heads.
- All through hardened super tough blades.
- Sheet metal cutter blades can be resharpened.

Excalibur Sheet Metal Cutter

- Cuts mild steel up to 1.6mm (16 gauge) and stainless steel up to 1.2mm (18 gauge).
- Fast, up to 300mm (app.12") per second.
- Shearing action smooth, quick and well controlled. Leaves no distortion, marks or swarf.
- Cuts tight curves or straight.

Excalibur Fibre Cement, Plasterboard/MGO Sheet Shears

- Cuts up to
 - 1/4 inch (6mm) compressed fibre cement board.
 - 3/8 inch (9mm) non-compressed fibre cement board.
 - 5/8 inch (16mm) plasterboard/MGO.
- Creates minimum amount of dust.
- Pivot bolt is easily moved to cut different thicknesses.
- Cuts curves and straight.

240V
650 Watt
Product No.
EB6500

Available in Combo Cutter Packs with both Australian made cutting heads

240V 650 Watt Product No. EC6500

Sharpening/ Refurbishing/ Resetting service

Available for Excalibur Sheet Metal Cutter Heads using factory production jigs and equipment.

Combo Cutter Packs

Includes both Sheet Metal Cutter and Fibre Cement Shear heads.

240V AC 650 Watt

**GEN 3
TECHNOLOGY**

WORLD'S FASTEST CORDLESS CUTTER

Excalibur Gen 3 Cordless Cutting Tools, from one charge of the 2.5AH NiCad battery, have been tested to cut over:

- 100 metres (300 feet) of 0.45mm (26 gauge/0.020") roofing iron
- 20 metres (60 feet) of 7.5mm (5/16") non compressed "Blue Board"/ non compressed fibre cement board

Excalibur Cordless Features

- Reliable 14.4 volt Nickel Cadmium batteries (2 per pack)
- 2.5 amp hours for longer cutting between charges
- Fast 1 hour charger for added convenience
- 0-2300 rpm fast variable speed smooth cutting (most other cordless units under 1700 rpm)
- Compact motor ensures a well balanced ready to use tool (Motor specifically developed for Excalibur cutting heads)
- Switch lock prevents accidental starting
- Light weight tool only 2.5 kg
- Long lasting metal gears in robust metal housing
- Comfortable moulded ergonomic design hand grip
- Heavy duty easy to carry Tote bag

Plus all the features of the famous Excalibur Cutting Heads

Air Powered Sheet Metal Cutters & Fibre Cement Shears available

Product No. EXBAL1200

Product No. EXMAL1200

Excalibur Cordless Impact Drill

- Same reliable power source as other Excalibur cordless units.
- Light weight 2.0Kgs complete
- Speeds 0-2200rpm & 0-3000bpm
- Torque 98.1 N-m
- Takes standard 1/4" shank tools

Battery Pack interchangeable with Excalibur Cordless Cutters

14.4 Volt
Product No. ECD6714A

48 Piece Driver Bit & Socket Set

- Reversible ratchet "T" handle
- 3 angle settings (patented) for extra leverage and tight spaces
- Quality precision milled and tempered S2 bits with tough industrial titanium coating
- Suitable for use in impact drivers
- Variety of bit types to suit most situations
- Replacement bits available
- Colour coded bits for easy identification
- Chrome Vanadium 4-12mm socket attachments
- Comfortable non-slip easy grip handle
- Rugged high impact plastic storage case

Made to the stringent specifications of Excalibur Tools Pty Limited

Product No. DX02831

STRIKER MECHANICAL CARPENTER PENCIL

EFFICIENT:- No more wasted time sharpening broken, or dull carpenters pencils.

DURABLE:- Thick bodied, high impact, ABS plastic. Ultrasonically welded for strength. Holds up in heat, cold and abuse.

RELIABLE:- Poly plastic jaws for a reliable flexibility. Holds up to repetition and abuse.

STRONG:- "DURA LEAD" is 18% thicker than average lead.

INNOVATIVE:- Unique product from Excalibur Tools.

Product No. 77579

Replacement leads available
Product No. 77589

Screw Holder Tradesman quality

SIMPLE AND EASY TO USE

- 1 Slide Excalibur Screw Holder onto screwdriver or power tool bit. (min projection 60mm).
- 2 Place any screw from 12 to 75mm long into cone.
- 3 Engage screwdriver or bit and work with just one hand with no risk of dropping the screw.
- 4 Work until "click" sound is heard, which indicates that the screw is flush with the material.

Product No. EXSH

KOMBI-BIT

Drilling, Tapping and Deburring in one operation with 1/4" Hexagon Drive Bit

Suitable for universal use in materials of medium mechanical strength, non ferrous metals and thermoplastics. (Up to 600N/mm² tensile strength, mild steel).

 Made in Germany

IDEAL FOR MOUNTING and SMALL BATCH PRODUCTION

Product No. 67202 Metric 6 Pce
Product No. 67273 UNC 6 Pce
Product No. 67275 UNF 6 Pce

An extension piece is included in each set
Single Bits Available Separately

Grabit® pro & Grabit® - damaged screw & bolt removers

Grabit®'s patented two step process makes it so easy to extract damaged screw heads - especially those that have completely hollowed out heads.

Grabit® is made from high quality tool steel and is designed to be a versatile, reversible drill. Grabit® is also effective using a 1/4" hex screwdriver and can be conveniently attached to a 1/4" quick connect system.

Grabit® removes many type fasteners including Phillips, Slotted, Hex, Torx, Tri-Wing, Pozidrive, Frearson, most tamper resistant screws and more.

Grabit® pro Broken Bolt & Damaged Screw Extractor

Multipurpose extractor provides extra durability for extracting damaged screws up to 4 in. long and most bolts.

Damaged screws:

No drilling required; inside of screw head is reamed and serrated edge of extracting end of tool bites into straightened sidewalls for maximum performance.

Grabit® micro Broken Bolt Extractor

Micro extractor quickly and easily removes small bolts from tight spaces.

Product No. 8440P

Product No. 8520P
(Grabit® made in China)

Grabit® Drill-out

POWER EXTRACTOR
fast, easy and dependable

No grinding or centre punching required.

Use in reverse only

Made in U.S.A.

The Grabit® Drill-out is available in 7 sizes. Engineered with a Winslow self centering tip, each tool is specially designed to drill into rough surfaces that are caused when bolts break. The Grabit® Drill-out tip not only gives you complete control - it allows you to obtain a perfectly centered hole without the tip walking or wandering. Grabit® Drill-out is not designed to be used on wood screws. Will result in broken off screw head.

Grabit® Drill-out

Product No. 7017P

Single Bits available separately
