Alpha Melamine-leg

Prestio60 workstations can be specified with a range of screen heights to balance privacy and acoustics with staff interaction.

- 1 Lower screens (up to 1200mm) generally provide a very open plan environment and allow full visual interaction between seated operators.
- 2 Mid-range screens (1500mm) offer increased privacy and acoustics visual interaction is possible between standing but not seated personnel.
- 3 Higher screens (1800mm and over) provide total visual privacy from even standing personnel whilst also affording the highest noise acoustic levels...ideal for call-centres..
- 4 Glazed panels offer a more open feel whilst still providing some acoustic barrier...
