About Us

- since 2022 -

We're on a mission to make growing gourmet mushrooms easy, fun, and fascinating - Flush empowers people to enjoy growing their own health food.

We're a passionate team of engineers and designers who have revolutionised how mushrooms are grown at home.

Flush is designed and manufactured in Newcaslte, Australia.

The Problem

✗ Supermarket gourmet mushrooms are expensive, poor quality, and wrapped in plastic

✗ Mushrooms are difficult to grow in the Australian climate

✗ Mushroom grow kits require daily misting

✗ Climate control equipment is bulky and expensive

How Flush Works

1. Set
Place the mushroom fruiting block in your Flush cabinet

2. Observe
The most exciting phase!
Watch your mushrooms grow

3. Harvest
Pick your healthy, delicious mushrooms!

Benefits

Health
Boost your vitality with a clearer mind and stronger immunity

Variety
Choose from 10 gourmet varieties - many can't be purchased in stores

Home grown
The easiest way to grow your own produce. Self-sufficient satisfaction!

Reliable
Produce up to 1kg of mushrooms per week, all year round

Testimonials

From customers with early access to Flush

"As expert mushroom growers, we've seen a lot of home growing setups and Flush has set a new standard. Flush takes care of all the hard work, providing the ideal environment for beautiful, healthy mushrooms - even those more difficult to grow species. It's a seriously impressive unit and a game-changer for home mushroom growing"
 - Mickey and Amy, Little Acre Mushrooms -

"...Flush is a great way to get growing your own mushrooms at home. Its elegant design looks great in your kitchen and is designed to be user-friendly and produce masses of mushrooms."
 - Mark Udovitch, @plantbasedmale -
