KwikFit® Polymer KF3S	Black	Metal, Wood	Fixed at 19mm	N/A	20kg	Yes

#Gap variance for models without alignment legs. Hinges with legs have fixed gate gap of 21mm. ## Ratings are based upon two hinges on a maximum gate size of: Regular hinges: 1500mmH x 900mmW, Heavy Duty hinges: 1800mmH x 1200mmW.

The world's most trusted gate hardware

WHY A WELL-MAINTAINED GATE IS A SMART DECISION

**1** In general, gate latches and hinges make up just 1% of the total cost of a perimeter fence...but it makes the other 99% function effectively.

**2** Fences and gates can shift due to ground settling, environmental factors and general use and abuse. Latches, locks and hinges should be readily adjustable to ensure that gates work reliably and safely at all times.

**3** Gates are the only moving part of the fence system, therefore gates depend on high-quality gate hardware to function properly in all conditions and climates.

**4** Properly functioning gates that self-close, self-latch and provide ongoing adjustability (alignment) give users peace-of-mind. Gates and gate hardware should provide security and safety at all times.

ADJUSTABILITY

Hardware that's easily installed and can be adjusted for vertical and horizontal alignment, or self-closing tension.

QUALITY

Industrial-strength engineering polymers and quality, stainless steel components offer rust-free reliability over a lifetime.

RELIABILITY

D&D gate hardware is designed to work in the harshest environments and conditions – freezing, heat, salt, sand...

WARRANTY

D&D's exceptional Lifetime Warranty (most products) is your guarantee of peace-of-mind during and well after your hardware has been installed.

TESTING

All our hardware is rigorously tested to meet international Standards/Codes and to comply with ISO-9001 Quality Assurance.

SECURITY

D&D's award-winning, innovations provide the quality and strength expected to keep children, homes and businesses safe and secure.

D&D Technologies®  
World's most trusted gate hardware

D&D Technologies' range of quality gate latches, locks, hinges and closers are designed to protect your loved ones by safeguarding swimming pools, homes, gardens and perimeter gates and fences.

Experience counts

D&D Technologies began life as a fencing company more than 30 years ago. Our multi-award-winning products are the choice of fencing professionals and DIY'ers worldwide.

We are proudly Made in Australia

All of D&D's polymer gate hardware is manufactured in its own facilities in Sydney Australia, and subject to ISO-9001 Quality Assurance auditing and certification. This ensures our strict quality standards and product reliability are maintained on all products.

We offer a Lifetime Warranty

We confidently offer a Lifetime Warranty on all our D&D-manufactured gate hardware products. Some electronic components are limited to a 2-Year Warranty from our supplier/manufacturer.

Our products will not rust or stain

D&D invented the world's first polymer gate latches and hinges (and magnetic gate latches) constructed of engineering polymers and marine-grade stainless steel components. Our long-lasting polymer and stainless steel hardware will not rust, bind, sag or stain.

Your safety is our priority

We are constantly refining the designs of our premium gate hardware to improve child safety around swimming pools, childcare centres, schools, resorts, hotels, homes and businesses.

Innovation is our passion

We employ a dedicated team of Research and Development engineers and industrial designers to develop new and improved products year after year. The result is innovative, state-of-the-art gate hardware boasting numerous design awards and accolades from safety organisations.

## The original, magnetic child safety gate latches

- MagnaLatch® ALERT**  
ML3ATPLAG2    **MagnaLatch® ALERT**  
ML3AVPLAG2

5 5 5 5 5

  - Safety gate latch with built-in electronic alarms
  - Visual & audible alarms (flashing LEDs & sounds)
  - No wiring or electricians required
  - Single beep each time gate is entered/exited
  - Alarms notify if gate is open or not latched
  - Full alarm activates if gate left open 15+ seconds
  - Optional: Touch-sensor disarm feature
  - Tested to withstand dust & water in mechanism
- MagnaLatch® S3**  
ML3TPLA    **MagnaLatch® S3**  
ML3VPLA

5 5 5 5 5

  - The world's most trusted safety gate latch
  - Industry leading magnetic latching technology
  - Ideal for residential or commercial safety gates
  - Lockable and non-lockable models
  - Improved, stylish "Series 3" design
  - Visual indicator provides Locked/Unlocked status
  - 6-pin lock for higher security (rekeyable)
  - Vertical and horizontal adjustment
  - Alignment marks show when adjustment required

- MagnaLatch® Side Pull Non-lockable**  
MLSPS2

5
- MagnaLatch® Side Pull Lockable**  
MLSPS2L

5 5 5 5 5
- Reliable magnetic latching
  - Suits many house and garden gates
  - Model with built-in key lock
  - Lockable and non-lockable models
  - Small & unobtrusive - easy to install
  - Stylish dress caps (no visible fasteners)
  - Vertical & horizontal adjustment
  - Will not rust or corrode

## Key lockable latches for privacy or security gates

- LokkLatch® REGULAR**  
LLAAB
- 5 5
- Key lockable - no need for padlock
  - Optional External Access (Push-Button) Kit EAK
  - EAK allows operation from both sides of gate
  - Quick and easy to install and adjust
  - Won't rust or corrode
  - Industrial-strength polymer construction
  - Round-post model for chainlink gates available

- LokkLatch® PLUS**  
LL3PWD
- 5 5 5 5
- Keyed-different: 200 key combinations
  - Operates and locks from both sides of gate with EAK
  - Innovative alignment jig for easy installation
  - Requires only one drilled hole through post
  - Includes 125 and 150mm connector rods
  - Vertical & horizontal adjustment
  - Fits fence posts 25-150mm deep

- LokkLatch® DELUXE**  
LLD3L
- 5 5 5 5 5
- Operates and locks from both sides of gate
  - Ideal for residential and heavy duty gates
  - Dual 6-pin rekeyable locks
  - Requires only one drilled hole through post
  - Includes 125 and 150mm connector rods
  - Vertically and horizontally adjustable
  - Industrial-strength polymer construction
  - 316 marine-grade stainless components
  - Fits fence posts 38-150mm deep

- LokkLatch® MAGNETIC**  
LLMLDBT
- 5 5 5 5 5
- Ergonomic Push/Pull handled design
  - Operates and locks from both sides of gate
  - Requires only one drilled hole through post
  - Proven magnetic latching technology
  - Black trim covers included (metallic options)
  - No visible fasteners
  - Dual 6-pin rekeyable locks
  - Vertical and horizontal adjustment
  - Fits fence posts 38-150mm deep

- LokkLatch® PRO.SL**  
LLP1S-L
- 5 5 5 5 5 5
- Ideal for residential and commercial gates
  - Automatically locks when gate closes
  - Requires key to enter and exit
  - Operates from both sides of gate
  - Dual 6-pin rekeyable locks
  - Vertically and horizontally adjustable
  - Industrial-strength polymer construction
  - 316 marine-grade stainless components
  - Fits fence posts up to 150mm deep

## World's most trusted, self-closing gate hinges

TruClose® Regular  
for metal gates  
TCA1S3BT

TruClose® Regular  
for metal post to wood gate  
TCA2S3BT

TruClose® Regular  
for wood gates  
TCA3S3BT

TruClose® Heavy Duty  
for metal gates  
TCHD1A53BT

TruClose® Heavy Duty  
for metal or wood gates  
TCHD1S3BT

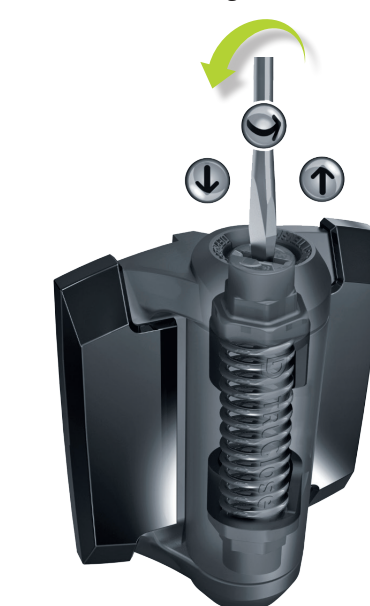

TruClose® Heavy Duty  
for large wood gates  
TCHD2L1S53BT

### TruClose® Self-Closing Polymer Hinges

- Ideal for pool and child safety gates
- D&D-patented tension adjustment
- Won't rust, bind, sag or stain
- Regular models self-close gates up to 30kg
- Heavy duty models self-close gates up to 70kg
- Adjustable tension from either end
- Industrial-strength polymer construction
- Self-lubricating durability - no maintenance
- Internal stainless-steel closing spring
- Hinges sold as pairs; Hinge Caps as single units
- Trim covers in Gloss Black, or optional Brushed or Chrome finishes

### Patented Tension Adjustment

Quick and easy tension adjustment (closing force) using a large screwdriver at either end of hinge barrel.

**TruClose® Hinge Safety Cap**  
Optional. Helps prevent toddlers from using bottom hinge as a climbing foothold.  
CODE: TCACAPS3

## General-purpose polymer & aluminium hinges

KwikFit™ Plain Pivot Hinge  
KF3P

KwikFit™ Self-closing Hinge  
KF3S

25mm leaf width  
Post or wall mount  
KF3A1BL

Post or wall  
mount  
KF3ABL\*

Alignment ridges for  
easy installation  
KF3\*

Two side-fixing  
legs for added strength  
KF3L2\*

### KwikFit™ Polymer Hinges

- Economical gate hinges
- KF3P plain-pivot for gates up to 25kg
- KF3S self-closes gates up to 20kg
- Industrial-strength polymer construction
- Integrated Safety Ramp prevents foothold
- Stainless steel components
- Won't rust, bind, sag or stain

### KwikFit™ Aluminium Hinges

- Self-closing hinges for gates up to 20kg
- Aluminium construction with powdercoated finish
- Wall- and post-mount models available
- Internal stainless steel closing spring
- Tension adjustment from either end
- Low-friction polymer bushes for smooth closure
- KF3A1BL 25mm for narrow frames (sold in pairs)
- All other models sold as single hinges

## GATE Accessories

GateHandle™  
for metal or wood gates  
LL3GH

### Polymer Gate Handle

- Convenient gate-opening device
- Easy to install and align
- Fits left- or right-handed opening gates
- Side-fixing legs for added strength
- Won't rust, stain or chip
- Industrial-strength polymer construction
- Stainless steel fasteners included

GateStop™  
for metal or wood gates  
TCGS3

### Polymer Gate-Stop

- Gate protection/alignment device
- Fits most gate sizes and materials
- Ideal gate alignment & protection option
- Prevents damage to latches and hinges
- Greatly reduces gate-slam noise
- Tough, durable polymer + rubber bumper
- Side-fixing legs for added strength
- Won't rust or stain

Proudly Australian made and owned
