## Console Capstan Winches

Neumann Equipment console capstan/windlass winches which are specifically designed for net and trawl board retrieval within the Commercial Fishing Industry. They are manufactured from high quality components for extreme environmental conditions, providing years of dependable service. Capstan winches can be provided to suit either top or side mount applications.

All of our console capstan winches are designer verified using Finite Element Analysis (FEA), manufactured and tested to meet marine industry standards. They are Built Tough and Designed to Last!

### Standard Inclusions:

- Compact reduction drive gearbox.
- Automatic drum lock – multiple disc brake.
- The drum is supported with a fully sealed self-aligning outrigger bearing.
- Single or dual capstan heads.
- Capstan diameter to suit application, up to 300mm dia.
- These capstan are grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine marine coatings.
- All components are selected to suit the harsh marine environment.

### Available Options:

- Line pull capacities – up to 5,000kg.
- Hauling line speeds – up to 40 metres per minute.
- Capstan heads can be cast in SG iron or bronze.
- Drive motor types – electric or hydraulic motors.
- Control consoles designed to suit customers specific requirements. Refer to Control Console Brochure.

Please contact us by phone or email to discuss your console capstan winch requirements.
