Clear PET Fresh Lock Trays

Go foam-free with TPM Fresh Lock meat trays that are made from recycled PET bottles. Each tray is made from at least 60% recycled #1 PET plastic (RPET) and is 100% recyclable.

The absorbent locks in the tray are specially designed to capture and retain fluid, preventing the fluid from pooling or leaking out of the tray. The tray works perfectly with film over-wrap, which can be applied manually or by using industry standard auto-wrapping machines. These trays can be used for most cuts of fresh or processed meats, seafood and poultry.

CODE	DESCRIPTION	UOM	CARTON QTY
TFLPET-75-CLR	7" x 5" x 30	Carton	800
TFLPET-85-CLR	8" x 5" x 30	Carton	560
