Sheaves

Neumann Equipment sheaves are designed and manufactured from high quality components for marine and industrial environmental conditions, providing years of dependable service. We specialise in custom built sheaves to satisfy winching requirements that meet relevant marine/industry standards.

All of our sheave designs are verified using Finite Element Analysis (FEA), manufactured and tested to meet marine/ industrial standards. They are Built Tough and Designed to Last!

Standard Inclusions:

- Carbon steel construction.
- Sheaves fabricated to appropriate standards.
- Stainless steel pins.
- Roller/ball bearings as required.
- Greaseable bearings.
- Pins and rollers sized according to loading.
- Bolted or pinned mount.
- All metal components are grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine industrial coatings.

Available Options:

- To suit line-pull capacities – up to 200,000kg.
- Stainless steel frame construction.
- Weld down base mounting.

Please contact us by phone or email to discuss your sheave requirements.
