What women
are saying
about Wemoon:

"They are gorgeous, environmentally friendly, comfy and secure, good for the garden and make great presents."

Rae Wills, Australia.

"I had very bad PMS, but since using your pads it has incredibly disappeared. I am now really happy to welcome my period."

Hitomi Kawamura, Japan.

"I tried Wemoon for environmental reasons, but I didn't expect them to be so much more comfortable than throwaways — thank you! And the wings are perfect; Wemoon pads are definitely the best pads I've ever tried."

Kay Kempers, Germany.

Caring for your own pads really means caring for yourself and Mother Earth will thank you too!
