OUR STORY

Leaving a Legacy

In 2018 our founder John Rakic after several years of trying to find customers and uses for washed and recycled glass, had a crazy idea to make benchtops and other surfaces, right here in Australia, using this unwanted material.

Soon after this Wayne Manners and Shane Graham joined John on this Australian made recycling journey and Eco Surfaces and Eco Benchtops became a reality.

The 3 very experienced gentlemen, who have over a 100 years of combined experience in manufacturing, specialty construction products and building materials wanted to give back to the industry that they have had their long and established careers in.

With adult children and many grandchildren, they want to leave the world in a better place than it is so future generation can enjoy what they have enjoyed.

Fast forward to 2024, and a local Australian fully operational patent pending production facility is in operation and some outstanding independently tested surfaces are being promoted and sold into our local marketplace.

This could not have been made possible without the financial investment of the Kanji Group.

We have started with eco benchtops and eco splashbacks, and using recycled glass, but Eco Surfaces, the company has the vision to expand into other recycled materials and other applications.

CLASSIC RANGE

Where sustainability meets elegance.

The Classic Range transforms recycled white glass into polished, reflective surfaces that radiate timeless beauty.

Like the shimmering surface of still water, each piece captures light and space, reminding us that even the simplest materials can be reborn as something extraordinary.

Paper Bark

DELUXE RANGE

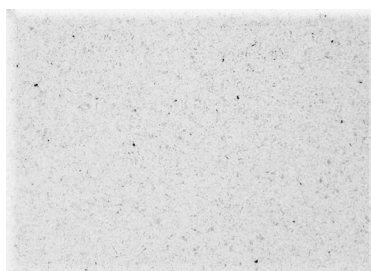

Quiet luxury re-imagined.

Iron Bark

Paper Bark

Snow Gum

The Deluxe Range offers a gentle matt finish, crafted from recycled white glass, embodying understated sophistication.

These surfaces feel like the soft hush of nature, balancing sustainability with style, and inviting you to experience the beauty of minimalism without compromise.

Iron Bark

Grey Gum

DESIGNER RANGE

A symphony of creativity and conscience.

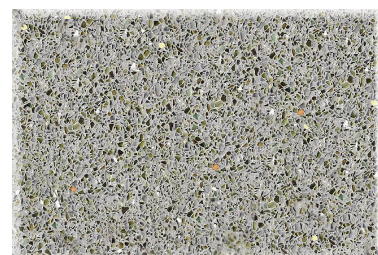

Where mixed-color recycled glass finds new life, reshaping fragments of the past into bold, artistic designs. Each surface is a unique canvas, telling a story of sustainability, transforming spaces into expressions of eco-conscious elegance.

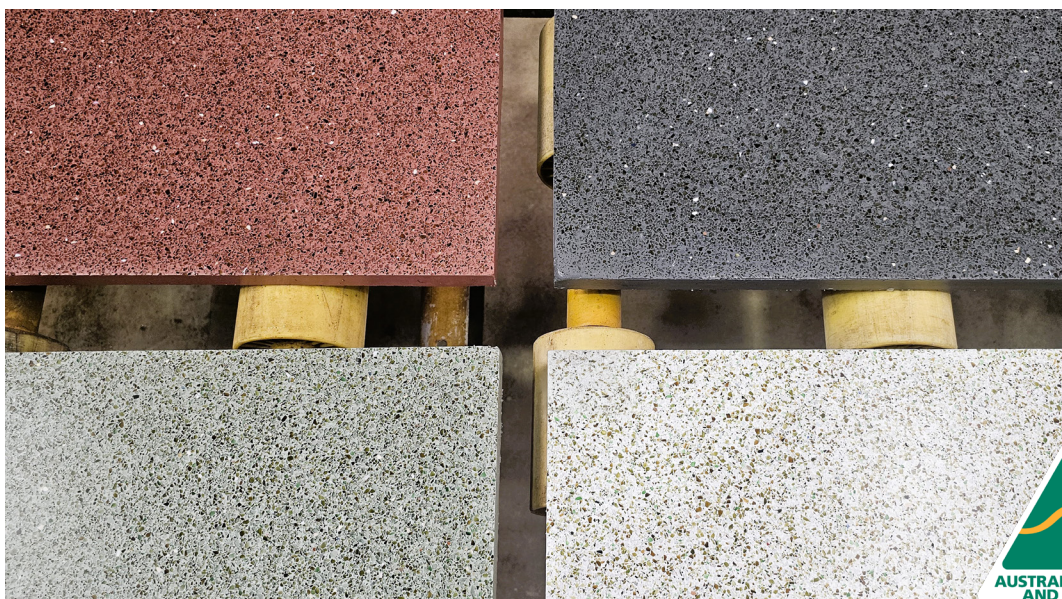

Big Red Roo

Beach Sand

Grey Roo

All EcoSurfaces products are proudly manufactured at our New South Wales facilities, using recycled glass sourced from local landfills in the communities where we operate.”

PRODUCT SPECIFICATIONS

Inspired by the natural elegance of stone and the versatility of a solid surface, Eco Surfaces presents a safe and stylish benchtop collection.

| GENERAL SPECIFICATION | TYPICAL |
|--------------------------|-----------------------------------|
| SLAB SIZE NOMINAL | 3050 x 1550 x 20mm |
| SLAB SIZE TOLERANCE | Length +/- 20mm Width +/- 20mm |
| SLAB THICKNESS TOLERANCE | +/- 1mm |
| SLAB FLATNESS | +/- 1mm |
| SLAB WEIGHT | 190-195 kg |

**SILICA
SAFE**

With testing completed at a certified laboratory to ensure **0% Crystalline Silica**, Eco Surfaces will not be affected by the anticipated nation-wide ban on engineered stone surfaces containing quartz.

The average eco surfaces benchtop contains the equivalent of approximately **450 standard glass bottles**. Sourced locally in Australia, we support the circular economy and keep these bottles out of landfill.

Eco Surfaces is proudly **100% Australian made and owned**. Our team of passionate pioneers are committed to enhancing the environment and community, sustainably.
