

DefendaLight

The DefendaLight Guard enclosure is designed to provide protection to external lights of trailers, caravans, cars, trucks & vehicles alike. This mechanism mounts behind or to the side of vehicles, creating a secure ribbed cage enclosure for lights.

Features

- Secure ribbed cage providing a crumble zone & protecting fragile lights at low speeds.
- Universal design accommodating various style lights.
- In-built universal side mount bracket for light housing.
- DIY Installation, requiring no re-wiring, welding or drilling.
- Horizontal or vertical adaptable. (DefendaLight100)
- Made from 100% galvanized steel.
- AUSTRALIAN MADE & OWNED.
