

“

## End Grain Cutting Board

My Story...

I'm made from select grade sustainable Australian timbers.

I've been glued with the latest technology and I'm totally non-toxic.

My finish is a all natural oil and I have been burnished to give me the best possible surface.

I have non-marking, non-slip rubber boots for serious chopping.

I will keep you knives sharper, for longer.

You only need to wipe me down - I don't need a bath. I'm naturally inhospitable to bacteria.

I can be made to order - any size.

”

Wooden chopping boards most hygienic

End grain construction for added durability

Made from eco-friendly timbers

Locally made in the Adelaide hills

### Sizes\*

#### 320 Series

- Medium 500 x 320mm, 45mm thick
- Large 650 x 320mm, 55mm thick
- Extra Large 800 x 320mm, 65mm thick

#### 400 Series

- Medium 500 x 400mm, 45mm thick
- Large 650 x 400mm, 55mm thick
- Extra Large 800 x 400mm, 65mm thick

#### Big Boards

Sizes from 650 x 500mm, 55-75mm thick  
Prices from \$495.

Contact us with your dimensions as Big Boards are bespoke.

### CNC Engraving

Engrave your own design. Prices from \$25.

### Carver

Turn any board into a Carver by 'adding a moat'.

We can machine a concave 3D profile into your board of choice.

We'll also carve a funnel to catch all those wonderful juices (simply slide a saucer underneath to catch them).

Add a Moat from \$18.

Sydney Blue Gum Carver

### The Range...
