

SOUTH OF
SOMEWHERE

Find Your Happy Place

We Aussies are a fairly happy-go-lucky bunch.

We're not sure why. Maybe it's all that sun. Maybe it's the pristine blue waters and endless sky. Whatever the reason, sometimes even we need a little help to fix the smile on our faces.

Fortunately, we live in a place that's been blessed by Mother Nature with an abundance of unique, native botanicals from which we can find all the help we could ever need to sleep better, breathe easier, feel more energised, less stressed, less anxious...

You get the idea. And we got one too.

It was to create a range of products that would bring the smells and wellbeing benefits of the Australian reef, beach, and bush into peoples' homes, helping them to feel the feel-good.

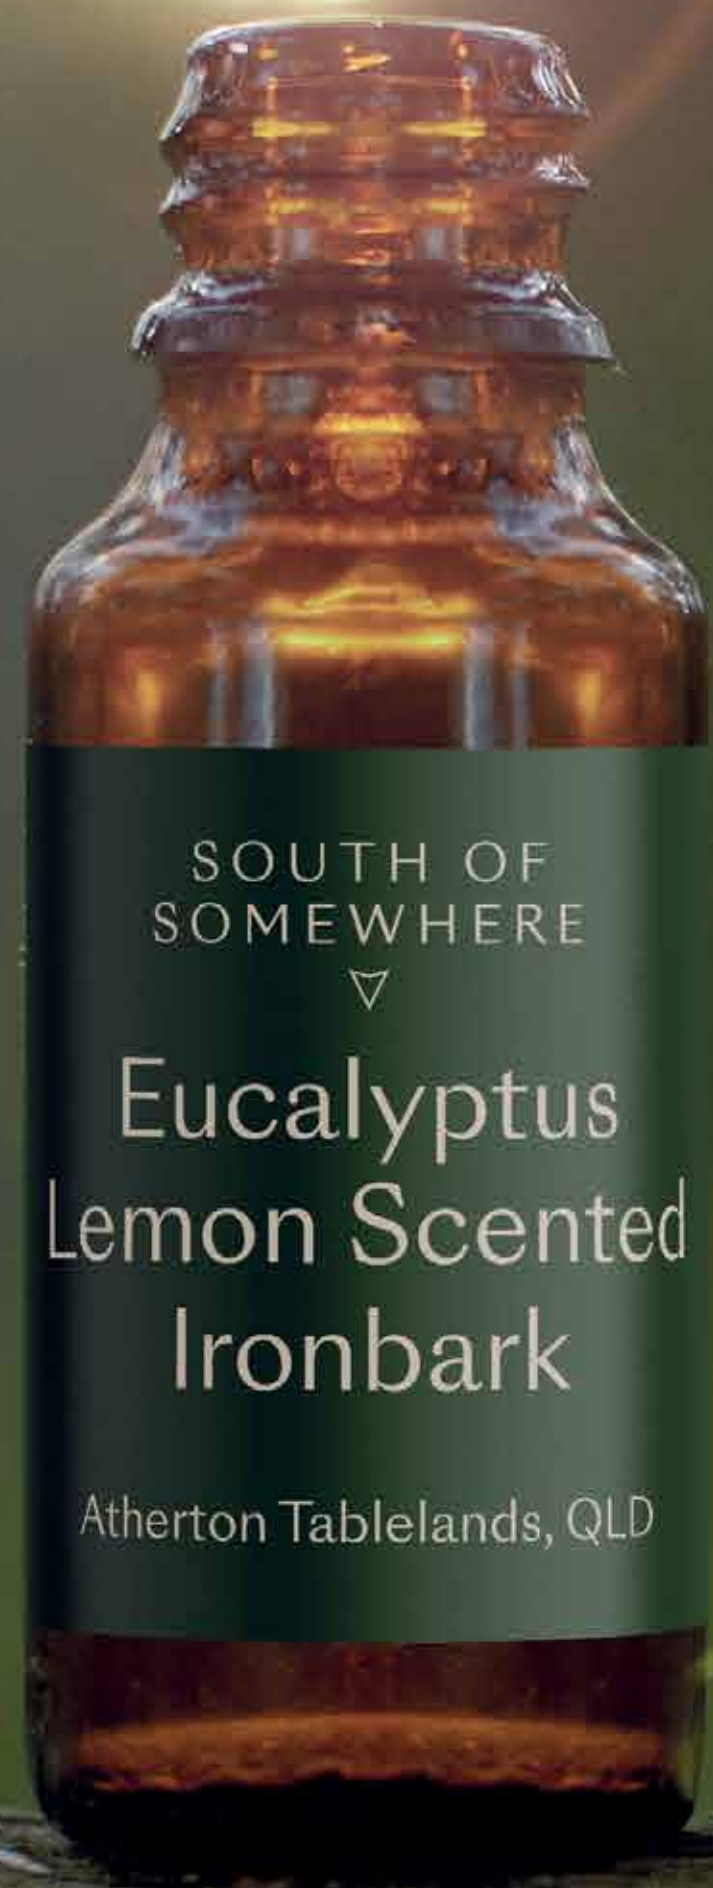

So, welcome to 'South of Somewhere'. A place for you to find your happy wherever and whatever that may be.

100% Australian grown, harvested, and distilled

Being honest is kind of a big deal in Australia: we like people to be straight-up and genuine. But unfortunately, when it comes to some essential oil brands, honesty isn't always the best policy. With us, it's the only policy.

Our oils are 100% Australian grown, harvested, and distilled. Not from China. Or Africa. Or Eastern Europe. But from small family run farms adhering to the very highest standards. After all, why go abroad when the finest quality oils in the world are grown right here on our doorstep.

Clean & Pure

Talking of standards, we use The Native Oils Australia Clean and Pure Quality Assurance program to ensure global industry standards for quality, purity, and cleanliness are met and exceeded for all our oils, which are all free from sulphates, parabens, synthetic fragrances, and animal products.

Single origin

Mandarin from Riverland, SA.

Lemon Myrtle from Northern Rivers, NSW.

Eucalyptus Lemon Scented Ironbark
from Atherton Tablelands, QLD.

We certainly clock up the kilometers to bring you the highest quality native Australian oils, each of which can be traced back to the Aussie farm from where it came by scanning the QR code on its packaging. So, when you open and diffuse our oils, you can be sure that what you're smelling are the true scents of the great Aussie outdoors.

You see, native Australian essential oils have unique aromas - they're fresh, herbaceous, warm, clean, and bright. And here's the clever part! These aromas serve as their natural defence systems against disease and pest infestations. Think of it as nature's very own suit of armour.

Small batch

We make a conscious decision to harvest and distil our oils in small batches. You'll find the batch number and expiry date on the side of each bottle. That way, we can create oils of the highest freshness and quality, while also helping sustain the land for future generations.

Sustainable & ethical

Our commitment to being sustainable and ethical also extends beyond the way we source and produce our oils to how we package them. Our labels and outer packaging are reusable, recyclable, and sourced from Australia, further reducing the carbon footprint of your order.

100% pure single origin
Australian essential oil

Proudly giving back

Aussie farmers are constantly doing it tough, which can take a heavy toll on their mental wellbeing. As the lifeblood of our country, they deserve our support. And that's why we proudly donate 3% of our profits to Rural Aid, one of Australia's largest rural charities, which provides critical support to farmers affected by natural disaster through financial, wellbeing, and fodder assistance.
