Important Note

Hip protectors help to reduce the chance of breaking a hip in the event of a fall. They will not however, prevent all hip fractures.

In the event of a car accident, a fall onto buttocks or severe cases of osteoporosis or other bone degenerating illness, a hip fracture may still occur.

Hornsby Comfy Hips® pants and shields have been specifically designed as compatible items for maximum effectiveness. Cross matching of our shields or pants with other products is not endorsed by us.

Payment Details

- Please send cheque or money order with order for pants. Contact us for postage cost.
- Health care facilities may contact us for special ordering & payment arrangements.
- A minimum postage fee is applicable.
- Department of Veteran Affairs will pay for Hip Protectors subject to approval. Call for more information. HCH® will process DVA claims.
- Most health insurance funds offer rebates for hip protectors.

To Order Hip Protectors

Our products can be ordered by mail, over the telephone or by fax. You can also purchase online, either via our website or by email.

Ultra Soft Comfort

Proudly 100% Australian made, manufactured,
owned & operated using locally sourced materials.

Protection Against Hip Fractures

Hip fractures, which occur as a result of falling onto the hip, are the most serious of falls-related injury.

Many people who fracture their hip never return to their previous level of independence and often require ongoing care in a facility. Therefore, it is crucial to try and lessen the incidence of hip fracture. Hip protectors are a simple, innovative way to protect the hip area directly.

What are Hip Protectors?

Hip protectors are either an undergarment or outer garment with a hip protector shield fitted in the correct place over the hip, which absorb forces of impact in the event of a fall.

HCH® hip protectors are made of a soft dimpled silicone solid and covered in fabric.

About our Products

We offer two protective underwear designs: with pockets for the easy removal of shields (which can be purchased separately) or with the shields sewn directly into the garment for high compliance. Our shields are soft enough to be slept on comfortably, and are virtually indestructible.

We also offer a range of comfortable accessories, including polar fleece unisex trackpants with shield pockets, and non-slip socks made from soft New Zealand wool.

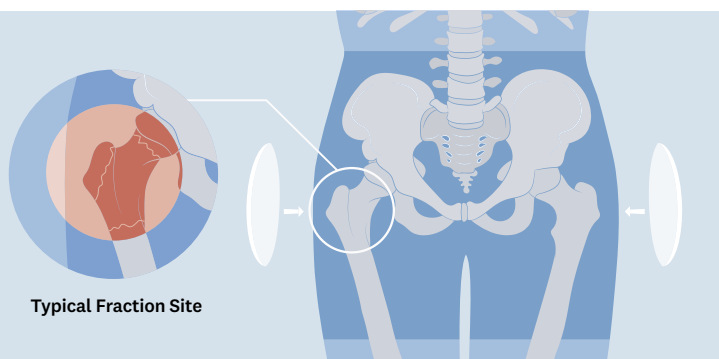

Sewn-In Shields - Unisex

Pockets Only - Mens

Non-Slip Socks & Trackpants

Typical Fracture Site

The shields have been independently impact tested by the Applied Mechanics Laboratory of Tampere University in Finland. HCH® is registered with the Therapeutic Goods Administration of Australia. The shields have been informally impact tested at Royal North Shore Hospital Biomedical Engineering Service for use in research.

Overseas studies have shown that *wearing hip protectors can reduce the incidence of hip fracture by half*. They have also been shown to improve confidence when worn.

Size Guide

	Underwear (cm)	Trackpants (cm)
XXS	50-60	-
XS	60-70	65-75
