

Eco Latex

Luxury, Comfort, Support

BEDMASTER® BEDDING
EXCELLENCE IN QUALITY

Specifications

Fabric/Design:

- Australian Made and Sanitised Visco Stretch Knit Fabric
- Treated with award winning temperature control feature ADAPTIVE

Comfort Layers: All Layers are 100% Natural Antimicrobial and Sanitised

- All feels have varying degrees of density in the latex

Support Layer:

- 100 % Natural latex
- High density foam support layer
- Laminated comfort layers using a water based glue
- 10 Year Guarantee

Benefits

- Cools the body naturally, inhibits bacteria growth and absorbs moisture
- ADAPTIVE uses the energy (heat) of your body to boost moisture wicking, moisture evaporation and cooling.
- 100% Natural Latex manufactured with the Dunlop process is sustainably sourced. Pin holes in the Latex aid in air circulation.
- Latex molds to each individuals body shape eliminating pressure points and supporting the body
- A healthier sleep alternative as Latex is inherently anti-dust mite, anti-bacterial and resists mold and mildew
- 100% Natural sustainably sourced in varying degrees of density determine mattress feels
- Varying density support layers stabilize latex layers and enhance the sleepers feel
- All layers are glued using water based adhesive.
- 10 Year Australian supported Guarantee
