www.shoji.com.au

Custom made Elegance, enhancing diffused light, creating relaxed living or for commercial premises.

Shoji Screens & Doors are light weight but strong in their joinery construction and can be manufactured to suit very large openings.

Our screens are often used to enhance efficiency of air conditioned rooms for heating and cooling.

A combination of fixed and sliding screens within the opening is a popular choice for versatility and access.

Transform that otherwise unused space into a unique and elegant room, office or dining area

Transform that corporate meeting room into a vibrant bright meeting room with a Shoji screen entrance or room divider

Shoji is made of a timber hardwood frame in Australian Tasmanian Oak or New Guinea Rosewood.

These beautiful timbers have been selected because they have the correct grain and density to reproduce the quality of the original Shoji screens.

Shoji screens and panels have many applications - they are perfect for use as room dividers or sliding wall partitions, in fact in any area of your home or office.

AUSTRALIAN MADE

Custom made screens & doors for your home, office, commercial premises and for volume architectural projects; all made 100% in Australia using locally qualified craftspeople.

Artistic, prestigious & versatile, our screens are hand finished, made from quality timbers and come with a variety of durable polycarbonate and acrylic infill panels. Natural timber finished in clear, white or black lacquer, stained or painted to suit your décor.

Providing a traditional Japanese feel or a contemporary statement, we install or can supply for you to fit.

Our screens & doors may be used as room dividers, fixed partitions, or free standing, and in sliding, hinged, cavity or bi-fold applications.

Great product, great service, made to last.
