

No more missed deliveries

Stylish, secure, simple to use

The innovative Australian-designed and engineered Deliver-Eze® parcel letterbox range ushers in a new era for residential letterboxes. It satisfies a growing need for a secure letterbox to take delivery of online purchases when nobody's home.

Deliver-Eze parcel letterboxes accept large courier and Australia Post packages (up to A3 footprint) in addition to regular mail, simply and securely.

Three stylish versions share a world-leading anti-theft chute mechanism that prevents parcels being fished out.

Mosman (pillar) is a free-standing unit developed specifically for homes without front fences.

Brighton (brick-in) is designed for installation in brick, block and stone structures or walls.

Malvern (fence) integrates smoothly into most kinds of new and existing fences.

Securely accepts:

- » Large parcels (A3 size)
- » Online shopping
- » Regular mail (A4 size)
- » Bulk or holiday mail

On sale from \$449 RRP including delivery. 30 day money back guarantee.

Visit www.deliver-eze.com.au for more information or call **03 9023 4881**. 
Free shipping to VIC / NSW / ACT / SA and \$30 to QLD / TAS / WA / NT.

Key features and benefits

Upmarket good looks: accentuated by premium marine grade 316 stainless steel.

Ease of use: any courier company and Australia Post can deliver packages to a Deliver-Eze parcel letterbox.

Security: patented anti-theft chute that prevents parcels being fished out, pry-resistant cam lock or optional resettable combination lock on rear door.

Space efficiency: allows secure delivery of multiple parcels up to 325mm x 315mm x 225mm.

Class-leading durability and refinement: underpinned by top-grade components, heavy duty pre-galvanised and phosphated steel construction, protective coatings and harsh environment finishes.

Self-closing delivery door – a precision mechanism.

Shock absorbing mat – to help protect incoming parcels.

First time delivery benefits – save time, save the planet. No more driving to collect parcels, no more re-delivery runs for couriers.

Custom house number engraving – this impressive option provides the ultimate in customisation.

A finalist in the 2014 Australian Innovation Challenge, the world-leading Deliver-Eze parcel letterbox boasts plenty of kerb appeal.

How it works

For complete How it Works instructions and FAQ, please visit www.deliver-eze.com.au

1. COURIER ARRIVES TO DELIVER PARCELS.

Doorbell placard directs courier to the Deliver-Eze parcel letterbox.

2. COURIER OPENS DOOR AND PLACES PARCELS INSIDE.

A unique Australia Post format barcode allows for proof of delivery.

3. COURIER CLOSES DOOR. PARCELS ARE NOW SECURE.

Parcels cannot be fished out by thieves.

4. UNLOCK REAR DOOR TO RETRIEVE PARCELS AND MAIL.

Secure and convenient delivery of your parcels the first time.
