

Create a resort at home

Where the best memories are made

If you think back, you might agree that some of your favourite times as a kid were spent in a backyard pool. Maybe it was your neighbour's – or better yet – your own...

Splashing about, making up games or just floating around while talking about all sorts of things – the pool was a really fun place to while away the hours.

It was never just about the kids either. A backyard pool has always been a fantastic centrepiece for parties, or as a place to relax, for people of all ages.

With a Sterns Pool, you can create the same wonderful lifestyle for you and your family.

Great looking, durable, fast to install and affordable – a Sterns Pool will add huge value to your home, and more importantly, your life.

Here's how Sterns Pools are better than all the rest

There are many reasons why a Sterns Pool is on the wish list of discerning homeowners:

No one can match us for quality

Unlike many of our modular pool competitors, Sterns Pools are made in Australia, engineered to last and hand-finished to exacting standards.

Choose from our flexible designs

Our versatile modular design means your new pool can be adjusted in size and shape to fit the style you're after and the space you have.

Our pools are quick to install

A Sterns Pool can be installed in as little as a day so you'll be 'in the swim' in next to no time.

Minimise maintenance

With a Sterns Pool, you can spend your weekends enjoying your pool, not working on it. Our pools are designed to reduce maintenance and with our range of quality pool maintenance equipment, keeping your pool sparkling will be fast and easy.

Affordable luxury

Our range of beautiful pools means you can achieve the look and feel of an inground concrete or fibreglass pool at a fraction of the cost.

When you choose a Sterns Pool, you'll benefit from our decades of experience in manufacturing and supplying modular pools of exceptional quality.

We're proud of our reputation as the trusted name in modular pools throughout Australia and beyond. We'd be pleased to show you through our range.

Bahama Braceless

Modular pools – stylish and affordable

Modular pools – or above ground pools as they're sometimes known – have come a long way in recent decades.

Advances in design, components and construction have created exciting new looks and styles along with flexible options for pool owners.

Sterns Pools are at the forefront of these breakthroughs.

Our pools beat concrete or fibreglass pools hands down on:

Speed of installation

A professional can install your pool in as little as a day, or you can even install it yourself.

Ease of installation

A concrete pool can involve months of mess and construction, and a fibreglass pool often needs to be craned into place over your home. Sterns Pools' components can generally be transferred to your backyard via a side pathway.

Affordability

Our pools will give you the look of the most sophisticated pool without the high-end price tag.

If you compare Sterns Pools with other modular pool suppliers, you'll quickly see that the high quality and flexible dimensions of our pools put us in a league of our own.

Your family will love your new Sterns Pool

How good will it be to step outside to your own family pool?

It's like having a resort at home where you can spend as much time as you like having fun together.

No more bored kids or the need to organise activities somewhere else to keep everyone happy and occupied.

Good healthy fun is conveniently located just steps away.

Your pool will provide a place to relax and unwind, or to exercise if you are feeling energetic.

Our flexible range of modular pools will enhance every type of garden, creating a beautiful visual feature for you to enjoy.

Affordable, durable, fast to install and easy to maintain, choosing a Sterns Pool will be one of the best decisions you ever make for your family.

“Friends who already had a Sterns Pool recommended you to us. We're really pleased we chose Sterns as we can easily see our pool lives up to the reputation for quality we'd been told about.”

Backyard fun starts here...

A pool is a great place to gather around for a barbecue or party, all year long.

Apart from being a beautiful landscape feature, there is something really special and fun about having a pool.

It seems to be a place where everyone relaxes and is ready for a laugh. Little ones, teenagers and adults of all ages will love the chance to take a dip or play!

Matched with our complementary range of accessories including pool lighting, solar heating, pool toys, slides and more, your Sterns Pool is a real entertaining asset.

With a Sterns Pool in your backyard, you're ready for the very best of times.

From our family to yours...

For more than three decades, Sterns Pools have manufactured and supplied high quality designer modular pools throughout Australia and beyond.

Established by Cliff Stern in the 1970s, the Stern family continues to run the business today.

As a family-run company, we care about creating the finest in modular pools to give our customers many years of pleasure.

Over the years, our pools have won numerous design awards and attracted demand from a growing export market. Today Sterns Pools are exported to fifteen countries worldwide including Europe, the Middle East, Asia and the Pacific.

We are proud to be an Australian business, manufacturing locally and using Australian steel in our pool construction.

We look forward to providing you and your family with a quality pool from our innovative and affordable range.

“When we got our pool from Sterns Pools, we were all so excited! It keeps the kids entertained and they love having their friends around.”

Our quality sets us apart

Throughout our company's history, Sterns Pools have earned a reputation as the market leaders in modular pools of the finest quality and durability.

We have earned this by:

- Manufacturing our pools in Australia from Australian BlueScope Colorbond galvanised steel
- Hand finishing and inspecting all of our heavy duty vinyl liners, moulding each to the specific dimensions of each pool
- Using powder coated galvanised steel coping, and durable PVC and resin components elsewhere
- Offering a 10 year warranty for all liners
- Offering up to a 20 year warranty on all pools

Sterns Pools' insistence on the highest standards has attracted customers worldwide.

Our pools are currently exported to Europe, the Middle East, Asia and the Pacific.

We have also earned a number of industry design awards.

After more than three decades in business, we find that the adult children of our early customers are now choosing a Sterns Pool for their own family.

We are proud of this and take it as evidence of the reliability, value and quality of our range of modular pools.

Flexible sizes and shapes

Sterns Pools are engineered for maximum strength and durability and offer the choice of installation above ground, semi inground and fully inground.

Our popular braceless pools are sleek and streamlined, making them an ideal inground pool. When installed, you can achieve the same look as a concrete or fibreglass pool at a fraction of the cost.

With Sterns Pools, you can specify variations to the size and shape of your pool to match the dimensions you're after.

Furthermore, if you have a tricky or difficult site, no problem! Our pools are ideal for steep blocks and have been installed in the most challenging of environments.

Speak with one of our knowledgeable representatives to learn more.

Bahama Braceless

“We couldn't be happier. Our new pool from Sterns looks lovely in our backyard. The quality is faultless and we were thrilled with how affordable it was.”

Get in the swim sooner

Sterns Pools can be installed by a professional installer in as little as a day. This means you can begin enjoying all the benefits of a backyard pool sooner than you may think.

Compared with the expense and lengthy construction associated with a concrete pool or the logistical challenges of a fibreglass pool, your Sterns Pool is a dream to install.

Components can easily be delivered on site (a metre wide pathway is sufficient) and with our easy to follow instruction manual or instructional video, you can even install it yourself.

Professional installers love working with the quality of Sterns Pools. In fact we have heard feedback from some that they refuse to work with inferior modular pools from other suppliers because of the significant fail rate problem.

For a modular pool that's reliable and fast to install, Sterns Pools are the smart choice every time.

Fuss free maintenance

If you compare the feel and rigidity of a Sterns Pool with a competitor's, you'll quickly recognise the difference in the quality and finish of our components.

This attention to detail is really significant for how easy it is to keep your pool in great shape in the years ahead.

Sterns Pools are constructed from galvanised Australian steel, powder coated twice for durability and long-lasting good looks.

Our other components are made of resin or high quality PVC, and our heavy duty liners are thicker than those generally offered elsewhere, making them stronger and easier to maintain.

We also offer a complete range of reliable pool cleaning equipment including sand filters, pumps, skimmer boxes, vacuum equipment, leaf skimmers and telescopic poles as well as test kits.

Sterns Pools have a range that are compatible with either liquid chlorine or saltwater.

We would be pleased to describe more about how with Sterns Pools, you can spend less time caring for your pool and more time enjoying it.

“One of the best things about our Sterns Pool was how fast we had it and were able to begin using it. It was an instant hit with everyone.”

Enjoy a luxury pool without the high price tag

At Sterns Pools, we make having a great looking pool affordable and easy.

We recognise that people of all ages love the lifestyle that comes with having your own backyard pool. Over the years, we've made it our mission to deliver exceptional quality modular pools at family-friendly prices.

By incorporating many new improvements in design and construction of our modular pools, you'll find a Sterns Pool can easily match the look and style of much more expensive concrete or fibreglass pools.

And because we care about ensuring the quality is perfect, you'll also find that an Australian made Sterns Pool is a cut above many inferior, imported modular pools on the market.

See the difference for yourself.

We're confident you'll quickly agree that a Sterns Pool will give you a beautiful and long-lasting pool at an affordable price.

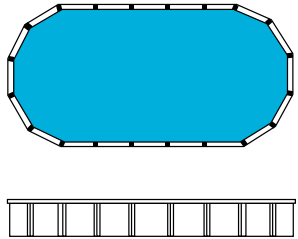

Coral Reef

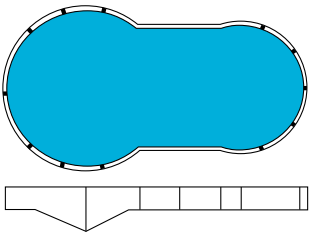

Our range

Sterns Pools have been popular for decades with good reason. We offer great looking pools that are strong and durable, flexible in design and affordable in price. Suited to all types of settings, we have the perfect pool for you.

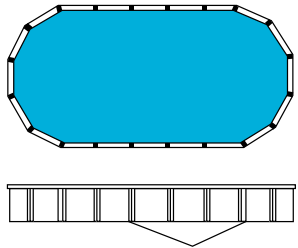

Bahama Braceless

The Bahama pool is Australia's strongest semi inground pool and has been designed to give you years of hassle-free enjoyment. Featuring a braceless structure, the Bahama is constructed from the highest quality materials from BlueScope Steel and is engineered for both inground and above ground installations.

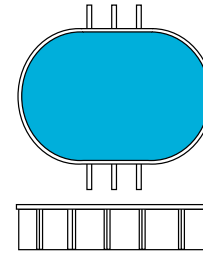

Bahama Keyhole

The Keyhole pool is an extension of the Bahama Braceless range, with the added benefit of a deep end and an eye catching keyhole shape. It's made from the best components to ensure years of hassle free enjoyment. The Bahama Keyhole is engineered for both inground and above ground installations.

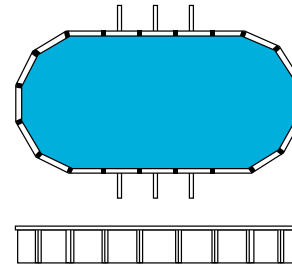

Coral Reef

Constructed using the best components to ensure years of stress free enjoyment. This braceless pool is made from quality BlueScope Steel and is engineered for both inground and above ground installations. It is covered by our 25 year pro-rata warranty.

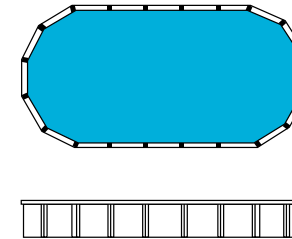

South Seas

Designed to accommodate families with a smaller budget, while still maintaining the quality and reliability you get from all Sterns Pools. With a choice of braced or braceless structural systems and a large selection of shapes and sizes, your family can enjoy a quality Australian made pool in your backyard regardless of space or budget.

Barbados

The Barbados is a brand new range of pools combining the best aspects of the South Seas range and incorporating a larger top coping. While maintaining the same slimline posts and framework, we have paired it with its own unique wall, giving the pool a sleeker look and making it perfect for any modern backyard.

Salt Water

Sterns Pools have created a semi inground pool that is highly resistant to corrosion and suitable for salt water. We have achieved this by replacing traditional metallic components with resin parts and adding extra protection to any non-replaceable metallic components. With a 20 year limited warranty.
