

Dedicated to
manufacturing
excellence.

Proven reliability.
Precision manufacturing.

We provide solutions to our customer's challenges.

Our service standard commitment focuses on providing superior products of exceptional quality, on-time and on-budget. Our consultative manufacturing approach means we provide advice and information on materials, cutting and sealing solutions to best suit the application.

All our gaskets are manufactured in Australia by Queensland Gaskets ensuring we uphold our quality commitment and fast production turnaround times.

Who we've worked with

“

The opportunity to utilise local, skilled and high-quality manufacturers was a core consideration when engaging Queensland Gaskets for the LAND 400 Phase 3 project.

“

The professionalism – just one of the things I love about Queensland Gaskets.

More than gaskets

Since 1953, Queensland Gaskets has produced gaskets, sealing materials and other applications for engineering and manufacturing businesses and projects across a wide range of industries.

More than specialists in gaskets, we are a skilled team who embrace the best technologies and methods to meet the needs and expectations of all our customers.

Our capabilities

Our collaborative manufacturing approach means we provide you with advice and information on materials, cutting and sealing solutions to best suit your application.

- Water Jet Cutting
- Laser Cutting
- CNC Routing
- CNC Knife Cutting
- Press Cutting

Australian Owned & Operated

Queensland Gaskets is a three-generation family business manufacturing under the same philosophy: **a commitment to excellence in products, employees, business practices and customer satisfaction.**

We source, supply and manufacture an extensive range of raw materials.

- Composites
- Cork
- Electrical Insulation
- EMI/RFI Shielding
- Foams
- Felt
- Laminates
- Non-Asbestos Fibre
- Shims
- High Temperature
- Metal and Steel
- Plastics
- Rubber
- Wood and Timber

Our extensive global supply chain has been developed over our long history in business, so you can trust we will find the right solution and material to suit your project.

Committed to quality

We owe our manufacturing distinction to the extraordinary expertise, capability and synergy of our team.

At Queensland Gaskets we operate an ISO9001:2015 Quality Management System to consistently provide products that meet customer and applicable regulatory requirements, and strive to enhance customer satisfaction in everything we do.

We adopt a LEAN philosophy to eliminate waste and build an efficient process capability.

Custom Cutting & Sealing

We cut from a wide range of materials and thicknesses to all shapes and sizes from fine tolerance jobs to large production runs.

CAD Drawing Conversion

We can convert your sample parts into a CAD format ready for manufacturing.

Global Supply Chain

Partnering with Queensland Gaskets gives you access to our global supply chain established over our six-decade-long history.

Rapid Prototyping

We can provide you with sample parts before you commit to a production run utilising 3D printing and CNC cutting methods.

Fast Turnaround

If downtime is costing you money we are immediately contactable and can turnaround urgent orders, fast.
