CYLINDER STORAGE LOCKERS

PBA SAFETY - INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS!

The “No Rust” Solution to safely & securely storing LPG, compressed gas cylinders & aerosol cans!

Cylinder Lockers from PBA Safety are Australian made offering superior features that make these units extremely durable and easy-to-use.

Constructed of 100% welded aluminium to resist outdoor elements, they will not rust, corrode, or discolour.

Expanded 7mm thick Aluminium panels are the strongest in the industry offering additional resistance to tampering.

Welded security lug on front door panel accepts a padlock (not included) for extra security. Heavier gauge aluminium mesh and extruded (not bent) frame add rigidity. All models have an exclusive solid aluminium roof panel that slants toward the back to shed water and ice.
