

## PROTECTANTS

### INSTANT CREME PROTECTOR

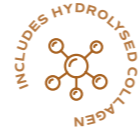

A daily leave in moisturiser, infusing vital moisture into the hair. This creme is perfect for all hair types and protects from split ends and acts as a safeguard from the sun, wind, air-conditioning and heat appliances.

### INSTANT FOAM PROTECTOR

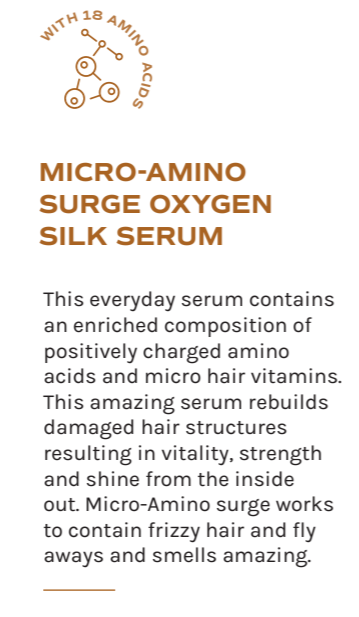

A daily leave in moisturiser, imparting weightlessness conditioning for all hair types. Hydrates and revitalises moisture starved and unruly hair.

## RECONSTRUCTIVE

### RECONSTRUCTIVE MASQUE

A deep protein treatment with positively charged ingredients to penetrate the cuticle to strengthen the internal hair cortex. Reconstructive Masque instantly improves resilience and restores hair vitality and lustre.

### MICRO-AMINO SURGE OXYGEN SILK SERUM

This everyday serum contains an enriched composition of positively charged amino acids and micro hair vitamins. This amazing serum rebuilds damaged hair structures resulting in vitality, strength and shine from the inside out. Micro-Amino surge works to contain frizzy hair and fly aways and smells amazing.

## OUR STORY

Microtexx is a personalised **Australian owned** hair care brand, designed to be an alternative solution to mass produced hair care regimes. Our mission is to **responsibly produce professional hair care products** using **natural ingredients** to give that salon feeling at home, without harming the environment. Microtexx products are **not tested on animals** and this is an aspect of our collection that is extremely important to us. Microtexx is continually **evolving and innovating** but will always stay true to its mission of providing salon quality hair care for people to use at home.

MICROTEXX

Introducing our exciting collection of Microtexx hair products. Custom Australian hair care, prescribed to be as unique as you!

PROUDLY AUSTRALIAN MADE & OWNED

## THE 4 STEP PROCESS

MICROTEXX IS NOT YOUR AVERAGE WASH AND GO PRODUCT RANGE. WE RECOMMEND A SIMPLE 4 STEP PROCESS TO ACHIEVE SALON QUALITY HAIR THAT LASTS.

1

### CLEANSER

Using your prescribed cleanser (shampoo), pour a capful of product into your palm and massage into your wet hair, then rinse. Repeat twice.

2

### MILK

Using your prescribed milk (conditioner), pour a capful of product into your palm and massage into your wet hair, work through mid-lengths and ends, then comb through.

3

### PROTECTOR

Once your hair is towel dried, use a small amount of the foam or creme protector and work through mid-lengths and ends to hydrate and moisturise your hair.

4

### SERUM & MASQUE

Amino Surge Serum is to be used daily on wet or dry hair to seal in moisture and hydration. This product can be coupled with either of the Protectors. Reconstructive Masque is to be used once a week for an intense hydrating treatment.

## CLEANSERS & MILKS

### MOISTURE ACTIVE COLLECTION

Designed for dry, thick and unruly hair, this collection gently hydrates and adds fantastic shine. The hydrolysed keratin assists in eliminating porous and frizzy hair, and is enriched with a series of protective and strength giving moistures and proteins.

### RE-BALANCE COLLECTION

Designed for fine, lifeless and oily hair, this collection is enriched with a herbal infusion blend to discourage oiliness and loss of volume. The active ingredients revitalise and rebuilds the hair, promoting stronger and fuller hair follicles.

### STRENGTHENING COLLECTION

Designed for fine hair that lacks volume and is prone to breakage, this collection promotes suppleness and shine, and improves the internal structure of the hair. The positively charged ingredients build strength and vitality, strand by strand.

### COOL ICE COLLECTION

Designed for blonde hair, this collection includes a gentle pastel pigmented component which neutralises brassiness and dull yellow tones. The advanced formulation of ingredients actively repairs hair layers, improving resilience and restoring hair vitality and adding brilliant shine.

### ARCTIC ICE

Designed for pre-lightened, silver or grey hair, Arctic Ice is a gentle moisturising and protein rich cleanser (shampoo). This cleanser contains metallic particles that work as shine enhancers to give the hair brilliant shine and gloss. It not only nourishes all hair types, but imparts intensive pastel toning value. Arctic Ice corrects lightened hair from discolourations,

brassiness and full yellow overtones. It can be used with any of the prescribed milks, but particularly compliments the Cool Ice milk.
