

What happens when I order with LNI?

You can trust LNI to deliver a hassle free, premium purchasing experience

- Your purchase order is processed through our Order Input Department and a Sales Order Confirmation is emailed or faxed to you.
- If you have applied for a 30 day account, your application is checked and processed by the LNI Finance Department.
- The LNI Technical Division conducts a final review of all materials and processes associated with your job prior to production.
- The in-house LNI Art Department works on your artwork to ensure it is production ready.
- If required, FREE colour matching is also conducted at this stage.
- Your LNI artwork is presented to you in hard copy or emailed PDF (or both) for approval.
- If you require changes, these are made and your artwork is re-presented to you. There are NO additional charges for artwork changes, regardless of how many you make.
- Once you have fully approved your artwork and colours, production commences. LNI production is based on the strict IATF 16949 Quality Accredited manufacturing system - the same Quality system applicable to all the parts we make for Australia's automotive industry.
- Once production finishes, a final inspection is done. Your order is then specially packed to keep your parts in mint condition for an extended period of time and to maximise their shelf life.
- We then deliver your order. Goods are despatched on approved 30 day account or after payment is received. Your payment options include direct transfer, cheque and credit card.

All your emblem, nameplate, label and decal challenges solved
