# YOUR DREAM KITCHEN STARTS HERE.

Kitchens by Kathie has been designing and building kitchens for the Brisbane area since Kathie first opened her doors in 1973. A lot has changed in the 40 odd years of service, however our dedication to delivering affordable, beautiful and practical kitchens, individually suited to each and every client, has remained steadfast.

With our own dedicated Brisbane based manufacturing facility, we are able to offer completely customised cabinetry, to suit any style and taste. Our Windsor showroom has a diverse range of unique design ideas, practical storage solutions, and styles and materials to immerse yourself in, and is a wonderful place to start your design journey.

Our team of qualified interior designers, and kitchen designers will show you how you can achieve your perfect space at a competitive price. We will work together with you, to plan and design your kitchen, or any other cabinetry, right to the last detail. We will also help you choose colours, materials and finishes, to make any room in your house, a beautiful, practical space designed especially for you.

When it comes to installation, we have our own in house installers, who will carry your project from the design stage, through to the finished product. We are also happy to work alongside your own preferred builder or tradesman, or supply for DIY installation if required. In addition to our installers we have a wide range of trusted tradespeople we can recommend for additional works that may be required to complete your renovation project.

To take the first step towards realising your renovation dream, we invite you contact us today to book a free, no obligation showroom consultation with one of our top designers. Here we will be able to discuss your plans and needs in detail, offer some advice and suggestions on how to maximise the potential of your space, discuss the huge range of materials and finishes available, and finally provide you with some initial pricing options for your project in a friendly, relaxed and no pressure environment.

We'd love to hear from you today.

*The Kitchens by Kathie Team*

# FAMILY KITCHEN IN KEDRON

**A bright and fresh colour palette with an ergonomic and user-friendly layout was the brief for this clean and contemporary kitchen in an open plan living space of an inner suburban family home.**

The streamlined layout was carefully designed to accommodate every need of this young family. A BLUM Aventos lift up door in feature timber grain colour conceals clever storage for small appliances while each deep soft closing drawer was carefully planned to ensure every item in the kitchen has a designated home.

Breakfast bar seating at the island provides a space for casual dining and somewhere for children to do their homework under Mum & Dad's watchful eye.

A double door pantry with easy to access inner pull out drawers and adjustable height shelves stores dried food and other pantry staples.

The cabinetry was designed to make the original leadlight window the focal feature of the space while a delicate Wedgwood teacup was the inspiration for the colour scheme.

The marble design benchtops sit on custom designed, made to measure, crisp white cabinetry with brushed stainless steel handles featuring softly curved edges.

The use of open shelving and a feature colour on the overheads helps to soften this otherwise crisp white kitchen, adding visual interest and making it feel warm and inviting.

**The subtle flat fronted cabinetry ensures that attention is not taken away from the beautiful, original features such as the window, timber flooring, and plaster cornice.**

## CITY VIEWS AT STAFFORD HEIGHTS

**Upon entering the front gate, the owners of this Stafford Heights property are greeted by a private and tranquil tropical courtyard space.**

Frameless glass sliding windows seamlessly connect the courtyard to the contemporary kitchen inside. An outdoor timber servery bar top allows family members and guests to sit and enjoy the outdoor space while maintaining conversation with those inside the kitchen.

The kitchen layout was designed to allow the homeowners to enjoy expansive city views, framed by a wall of windows as they prepare dinner in this large open plan space.

A monochrome colour scheme with handleless opening matt finish cabinets creates a minimalist, sleek and contemporary feel to the space.

The marble-look splashback and island benchtop with waterfall ends add a touch of luxury whilst keeping in harmony with the clean lines and black & white colour scheme. The use of a plain black stone on the main kitchen benchtops allows the island bench to be the hero of the space.

A walk-in pantry provides ample storage for all dry food items behind a full-height, opening door next to the cooking area. Small appliances are easily accessed – yet hidden away from sight – on a pull-out shelf behind a roller door in the side of the pantry.

To maintain the minimal lines of the space, hidden inner drawers have been included in the drawer banks either side of the sink to provide storage for utensils.

**“We were recommended to Kitchens by Kathie from a friend who was equally happy with their kitchen. From start to end, nothing was too much trouble. Tara had excellent and creative ideas but was always mindful of what WE wanted and worked that into the equation. There is not a day we don’t marvel at our beautiful kitchen and applaud our decision to use Kitchens by Kathie.”**

# KITCHENS

Classic styling and a timeless colour scheme meet clean and contemporary lines in this open plan kitchen designed to work perfectly with our clients vision for her brand new Hampton style home.

Whether the classic Hamptons look is your style, or if you prefer an **ultra-modern,** handleless **contemporary** feel, we can design a kitchen to suit your individual taste and needs.

“From the moment we entered the Kitchens by Kathie showroom for the first time, we have been delighted by the cheerful, helpful advice and perfect workmanship in creating our new kitchen and walk in robe. Both refurbishments took place with minimum fuss and inconvenience and we are really very pleased indeed with the finished products.”

BRAATVEDT

**“The reason we chose Kitchens by Kathie to do our kitchen was not only for the price and ability to custom make, but mostly because of their sincere, friendly and ‘non-pushy’ attitude which is often lacking in the business world nowadays.”**

**J&L VALERI**

# MORE THAN

# JUS

Our expertise isn't limited to kitchens. We design **cabinetry** for any space including laundries, wardrobes, **entertainment units**, desk and studies, bathrooms and many other applications.

# T KITCHENS

With the ever changing needs of growing children in mind this classic style wardrobe stores everything from clothes to toys, books and even suitcases and winter bedding at the top. Movable and removable internal storage components ensure the space can be easily adapted through teenage years right into adulthood.
