

(ADVANTAGE AUSTRALIA)

MAKE THE SWITCH TO AUSTRALIAN MADE AND PLASTIC FREE WIPES

ADVANTAGE AUSTRALIA

About Us

We got tired of seeing shelves full of imported wipes adding to plastic landfill, so we created GREAT AUSSIE WIPES:

- Plastic Free wet wipes
- 100% compostable (EN 13432)
- Australian made and owned

The best thing about GREAT AUSSIE WIPES is they can be placed into a green compost bin, so every time GREAT AUSSIE WIPES are used you help us reduce plastic waste. As part of The Hygiene Co. group, GREAT AUSSIE WIPES are manufactured in Australia in our standalone automated facility with medical level quality processes.

Wet wipes is what we do. Manufacturing in soft packs, canisters, bulk tubs and bulk refill sizes, GREAT AUSSIE WIPES provide a wet wipe solution for every home and workplace.

Consumers are increasingly making choices around Australian Made and Sustainable – The GREAT AUSSIE WIPES range provides them with locally made, environmentally responsible alternatives.

FUTURE PRODUCTS

- FOOD SAFE TABLE WIPES
- DETERGENT CLEANING WIPES
- FLOOR WIPES
- BATHROOM WIPES
