

SOLAR MADE SIMPLE FOR RENTERS

Rent solar panels and save!

Save more than \$100k on electricity

Solar rental aligned to property lease

Easy make good, no penetrations

One day Solpod installation

Designed and manufactured in Australia

Improve environmental footprint

GO SOLAR AND SAVE!

Relocatable:
Pods can be moved from site to site

Solar: Generate clean electricity on-site, reducing your bill

Non-Penetrating:
Pods do not put holes in the roof

A GAME CHANGER FOR RENTERS

Solpod's re-deployable, non-penetrating design allows renters to access the benefits of rooftop solar

Safety

- Best practice OH&S
- No manual lifting of heavy panels
- Less time on site, means less risk of accidents

Non-penetrating

- Removes risk to roof structure
- Simplifies 'make good' at removal

Pre-fabricated

- Install time cut by 70%
- Easily re-deployable
- Improved quality assurance

Flexible rental

- Aligned to your property lease
- From \$0 upfront

Proven Technology
