Travel Meet

'The process of making a journey, movement typically in a constant or predictable way'.

Building on from the ever popular Travel range of height adjustable desks and workstations is Travel Meet; the electronic height adjustable meeting table from Workspace commercial furniture.

Travel Meet brings a new level of dynamics to the collaborative space. Meet can be adjusted to suit the board room style discussions to active brainstorming sessions and everything in between. Available in black and white frames as standard and in a range of sizes from 1.6 to 3.4 meters long, Travel Meet can be customised to suit most spaces and needs.

Clean lines, simple interfaces and intelligent collision detection mean that it is as practical as it is stylish. Everything has been considered; cables are easily managed with cable trays or baskets and different screen options can be specified with confidence. Providing a consistent look amongst the family, Travel Meet ensures continuity to meet the requirements of all workplace environments. Travel Meet by Workspace is the ideal solution for delivering the perfect journey throughout every work environment.
