Tassie Salmon Fish Oil products are manufactured by Aussie Pets and Stock Feed Solutions Pty Ltd, a proud South Australian owned and operated Manufacturing Company who specialise in the manufacture of 100% Natural Multifunctional Animal Feed Supplements and Pure Tasmanian Salmon Fish Oil Products.

Our mission is to produce the best Tasmanian Salmon Oil products for the fishing community so that we can maintain sustainable health and wellbeing to our marine environment, through the products we deliver. As the old saying goes, "you are what you eat", we believe that to be never more true in the rapidly changing environment that we all live in. Knowing what you put into the environment has never been more critical and for that reason all of our products are PVA Friendly and carry the mark of quality and authenticity through the Australian Made and Owned accreditation.

We only use the purest ingredients to create some of the highest quality products in the market to date. Every product we manufacture has been approved to proudly display the Australian Made and Owned Logo.

Whether you're new to crabbing or a seasoned pro, understanding crabs and their favourite food is a must to catching them! Get an added advantage by soaking your bait in our Tassie Salmon Crabbing Oil Mix. The perfect attractant and preservative for fresh bait as our pure oil disperses effortlessly and slowly releases, making it irresistible to crabs!

Tassie Salmon Crabbing Oil Mix has been the secret ingredient amongst dedicated and professional anglers and can mean the difference between going home empty handed or a bumper catch! Our 100% Pure Tassie Salmon Oil can be used all year round and adapted to all fishing methods, as an irresistible attractant for almost all species of crustacean. Its your secret ingredient for the best catch! Can also be used to preserve nets, pots, rakes and boat trailers to prevent rust!

USAGE: Add 25-30ml (2 caps) per 1kg of bait. Soak bait in a cool dry place and let our Crabbing Oil Mix do its magic ... and remember, smelly is good but rancid is bad! Can be added to burley, soaking baits, stick and float mixes, pellets or bread, depending on your method of fishing.

STORAGE: Store in a cool, dry place. Do not refrigerate.

INGREDIENTS: 99.9% Tasmanian grown Atlantic Salmon, 0.05% Naturox Antioxidant.

Irresistible to Crab's Sense of Smell!

Our Tassie Salmon Crabbing Oil Mix is PVA Friendly. This means that whether you are adding the mix to a solid bag or PVA mesh you don't have to worry about the oil breaking down. As your bag or mesh disintegrate it will release the oil, which will float upwards through the water before forming a flat spot on the surface of the water. This will attract crabs down towards your bait.

Our oil products also hold both the Aquaculture Stewardship Council (ASC) and the Best Aquaculture Practice (BAP) certifications.
