# BEACH TOWELS

with a DIFFERENCE!

**A** graphic designer by trade and beach baby at heart, Pippa Owen launched [pippaowendesign.shop](http://pippaowendesign.shop) in March this year. 'I grew up in the Illawarra where the mountains meet the sea, and my love for the ocean and all things coastal developed.'

A proud Port Macquarian for nearly a decade now, Pippa wanted to create original designs inspired by local beach life and coastal scenery on the beautiful Mid North Coast of NSW. Starting off with both digital and hand painted surf style artwork on prints, cards and journals, the business has moved into homewares including tea towels, throw rugs and beach towels and hope to add to the product range as time goes on.

'We're really proud of our growing Eco beach towel range! Each sand free towel is made from recycled plastic waste water bottles and printed with

environmentally friendly water based inks – helping keep plastics out of our oceans and reducing landfill. They're super soft, light, and absorbent – perfect for the beach, pool, gym, yoga and travel.'

'Our beach towels and the majority of our quality products are proudly made in Australia and locally where possible, licensed to use the official Australian Made logo and listed on the official Australian Made website. We've had a number of orders from the U.S. so it's fantastic to be representing internationally too.'

Pippa Owen Design products are now stocked at Inside Out Cafe Lighthouse Beach, Wauchope Creative Hub, Llewellyn's at Gladstone and via the website at [www.pippaowendesign.shop](http://www.pippaowendesign.shop) as well as at the monthly Foreshore Markets.
