

SHIRE HOUSE FARM

Shire House Farm is a family owned and operated, small batch business based on the Bellarine. We pride ourselves on our organic, sustainable and eco-friendly approach to farming, with a strong focus on making the most of Australia's unique, diverse and native flora.

Our products are considered, from beginning to end. The way we grow our plants, harvest and process them, then who we connect with to produce a final premium product that is worthy of your home!

We have connected with other like-minded, Victorian based businesses, to produce a range of quality products for you to enjoy.

Check out our website for other products and ideas of how to use our products, and watch this space as our list expands with new products and experiences as we explore flavour profiles and applications.

Bellarine rosemary salt and olive oil goes well with pretty much everything, but we particularly like it with roasted dishes, as well as pasta, eggs on toast and salads. For something different, add to Bellarine mussels.

Local & sustainable, naturally.
