Room

Room is defined as “space that can be occupied or where something can be done”.

Room is an ideal acoustic space for individuals, coworkers or teams to occupy informally or formally; a space for quiet reflection or collective consultation. Single and double booth options are ideal for any commercial application and provide flexibility to transform any space into an intimate and enjoyable environment.

Freedom of finishes compliments the freedom to change your space to suit user needs. Room, exclusive to Workspace Commercial Furniture, enables you to occupy your space your way.
