

BinBLOCK

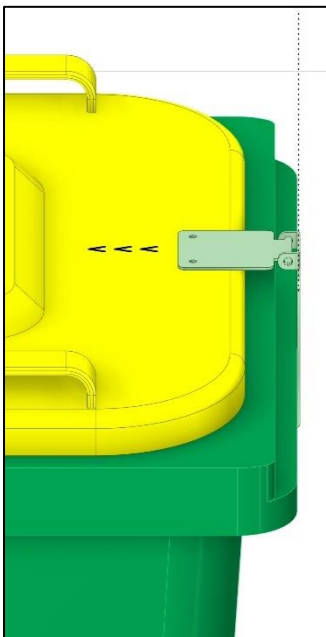

Features

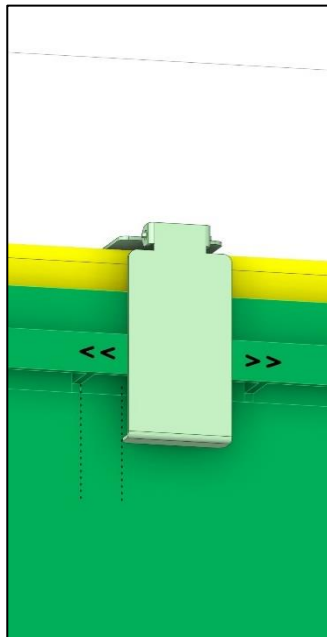

- BinBlock prevents birds & wind from opening wheelie bin lid.
- BinBlock keeps parks & streets clean.
- Automatically deactivates when rubbish bin collected.

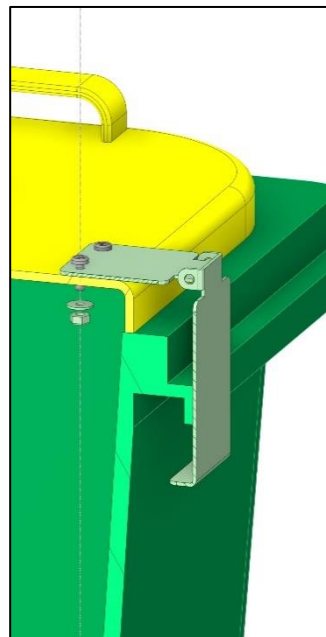

Instructions

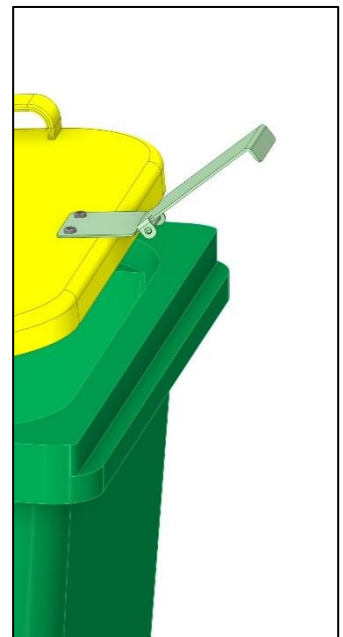

Place BinBlock on top of lid & slide back until latch touches parallel with bin edge.

Slide BinBlock left or right ensuring mechanism is 15mm away from bin underside structures.

Use 5mm drill bit through pre-drilled holes and push provided screws through while securing underside with washer and nut.

Lift BinBlock to open lid.
Do not overfill bin in order to allow BinBlock to freely swivel.
