

- ✓ Comes in 1 metre segments
- ✓ Easy to install, remove & clean
- ✓ Profiles to suit your gutter type

RACK OFF® GUTTER BRUSH allows water flow in your gutters while preventing the build up of dirt, leaves and other obstructions. Can be installed end to end, and also bent around corners and into cavities.

GUTTER GUARD HELPS PREVENT...

Mice rats, birds and other pests from entering via the roofline, which reduces maintenance and minimises damage.

GUTTER BRUSH IS IDEAL FOR...

Protecting homes, sheds, garages, warehouses. Available in single units or ask about our box price.

We can't promise you that you will never need to clean your gutters again! For best results, we recommend cleaning the silt from your gutters annually. Simply remove, shake off Gutter brush, flush or clear any silt from your gutters and replace.

Our RACK OFF® Gutter Brush is made from locally made galvanised steel wire and Flame Retardant Polypropylene. Fire Rated V1 which conforms to the Australian Standard AS3959 for "Construction of Buildings in Bushfire Prone Areas."

WARNING: When bushfires are imminent, remove Gutter Brush. Block drainpipes and fill gutters with water as recommended by Fire Authorities.
