

Integra Systems Company Profile 2025

About Us

Established in 1991. Proudly Australian made and owned for over 30 years.

Design Engineering

Prototyping

Advanced Manufacturing

Diverse Markets

Specialised Projects

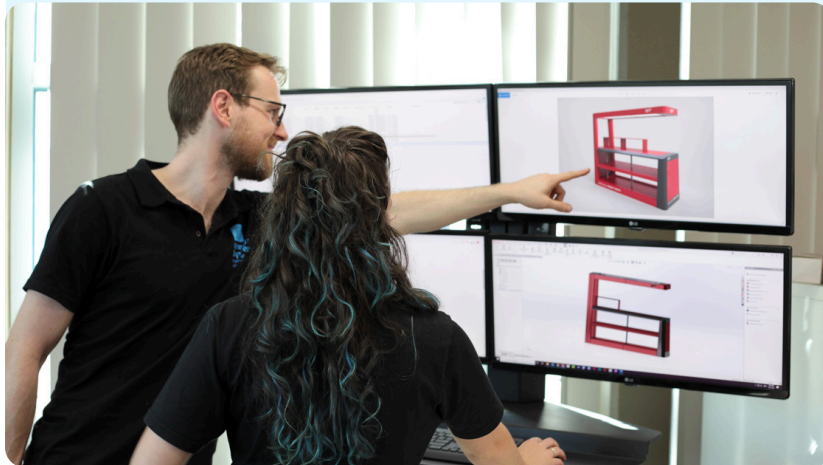

Positive Culture

Capabilities

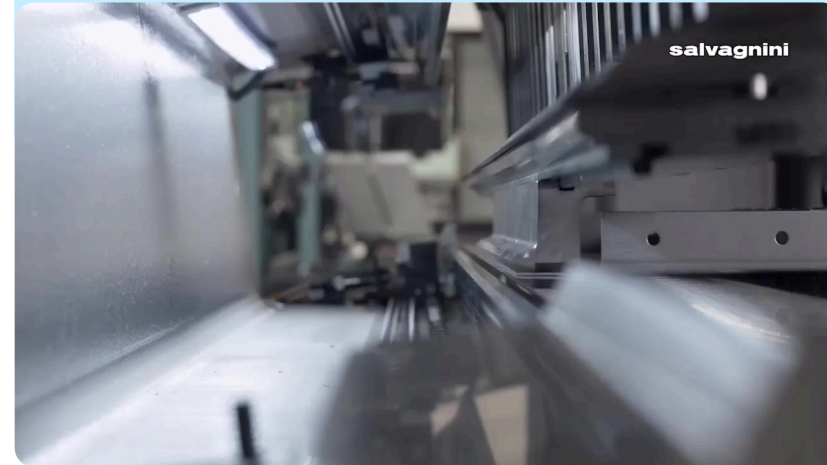

Product Development

- + Concept Design
- + Design Engineering
- + Design for X
- + Prototyping

Advanced Manufacturing

- + Automated Laser Cutting
- + Automated Turret Punching
- + Automated Panel Bending
- + Welding & Insertions
- + Powder Coating
- + Assembly

Integrated Solutions

- + Concept Design
- + Design Engineering
- + Prototyping
- + Manufacturing
- + Deployment
- + Support

DigiSMART Solutions

- + Industrial Digitalisation
- + Digital Solutions
- + Digital Managed Services

What Underpins our Operations

Sustainability

Circularity by design

A design approach for waste reduction and modularity for reuse, redeployment and/or recycling.

Locally sourced materials

Supporting the local economy, Australian-made & reducing carbon emissions from transportation. This includes sourcing BlueScope Steel that is ResponsibleSteel™ certified, a global steel industry sustainability standard.

Recyclability

Utilising recycled materials and recycling metals to meet our cradle-to-cradle ethos.

We are meeting the following United Nations Sustainable Development Goals:

Quality Management

We are certified with **ISO 9001:2015** and have a **Quality Management System** in place that focuses on continuous improvement to support quality outcomes and meet our promise to our customers to 'Make Your Vision Real.'

Key Considerations

- + Trust & Quality Delivery
- + Leadership & Responsibility
- + Culture of Excellence
- + Continuous Improvement
- + Accountability & Transparency

Ethical Sourcing - SMETA

We are committed to ethical sourcing, having a SMETA 4-Pillar ethical sourcing certification from SAI Global. This certification reflects our responsible business practices.

4 Pillars

Labour Standards

Health & Safety

Advanced Manufacturing

Bespoke Products

Operations powered by the **Integra K4.0** Kiosk

All of our operations are driven by industry 4.0, utilising the Integra K4.0 Kiosk to enhance manufacturing efficiency.

This advanced system integrates with our ERP platform, offering real-time data, automation, and precision, setting new standards in advanced, efficient production.

Product Development

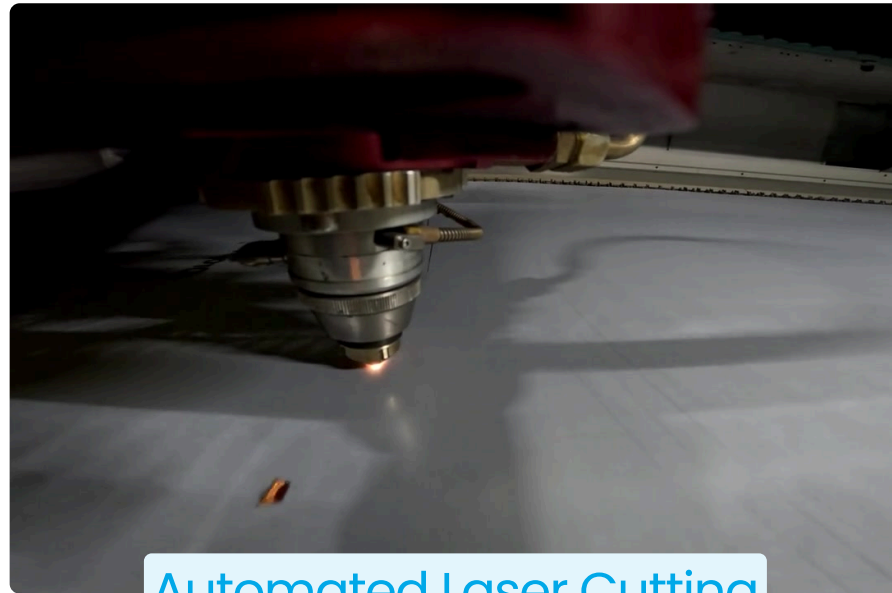

Our in-house design and development team is comprised of:

- + Product Design Engineers
- + Mechanical Engineers
- + Mechatronics Engineers
- + Electrical Engineers
- + Industrial Designers

Our team works closely with clients from concept design, through to prototyping, and handover to the production team. Form, function, circularity and production efficiency are taken into consideration throughout this process.

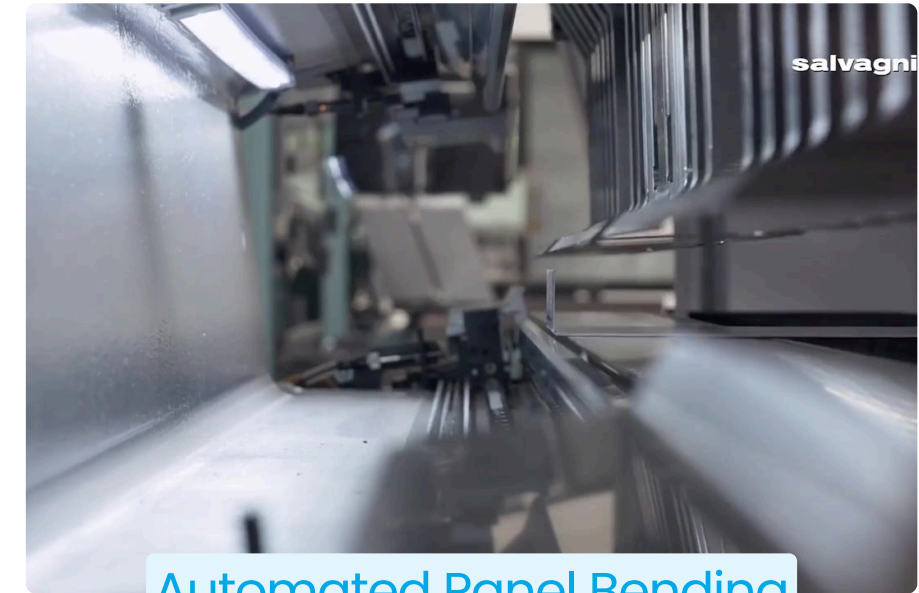

Precision Sheet Metal Manufacturing

Automated Laser Cutting

Automated Turret Punching

Automated Panel Bending

Automated Welding & Insertions

Powder Coating

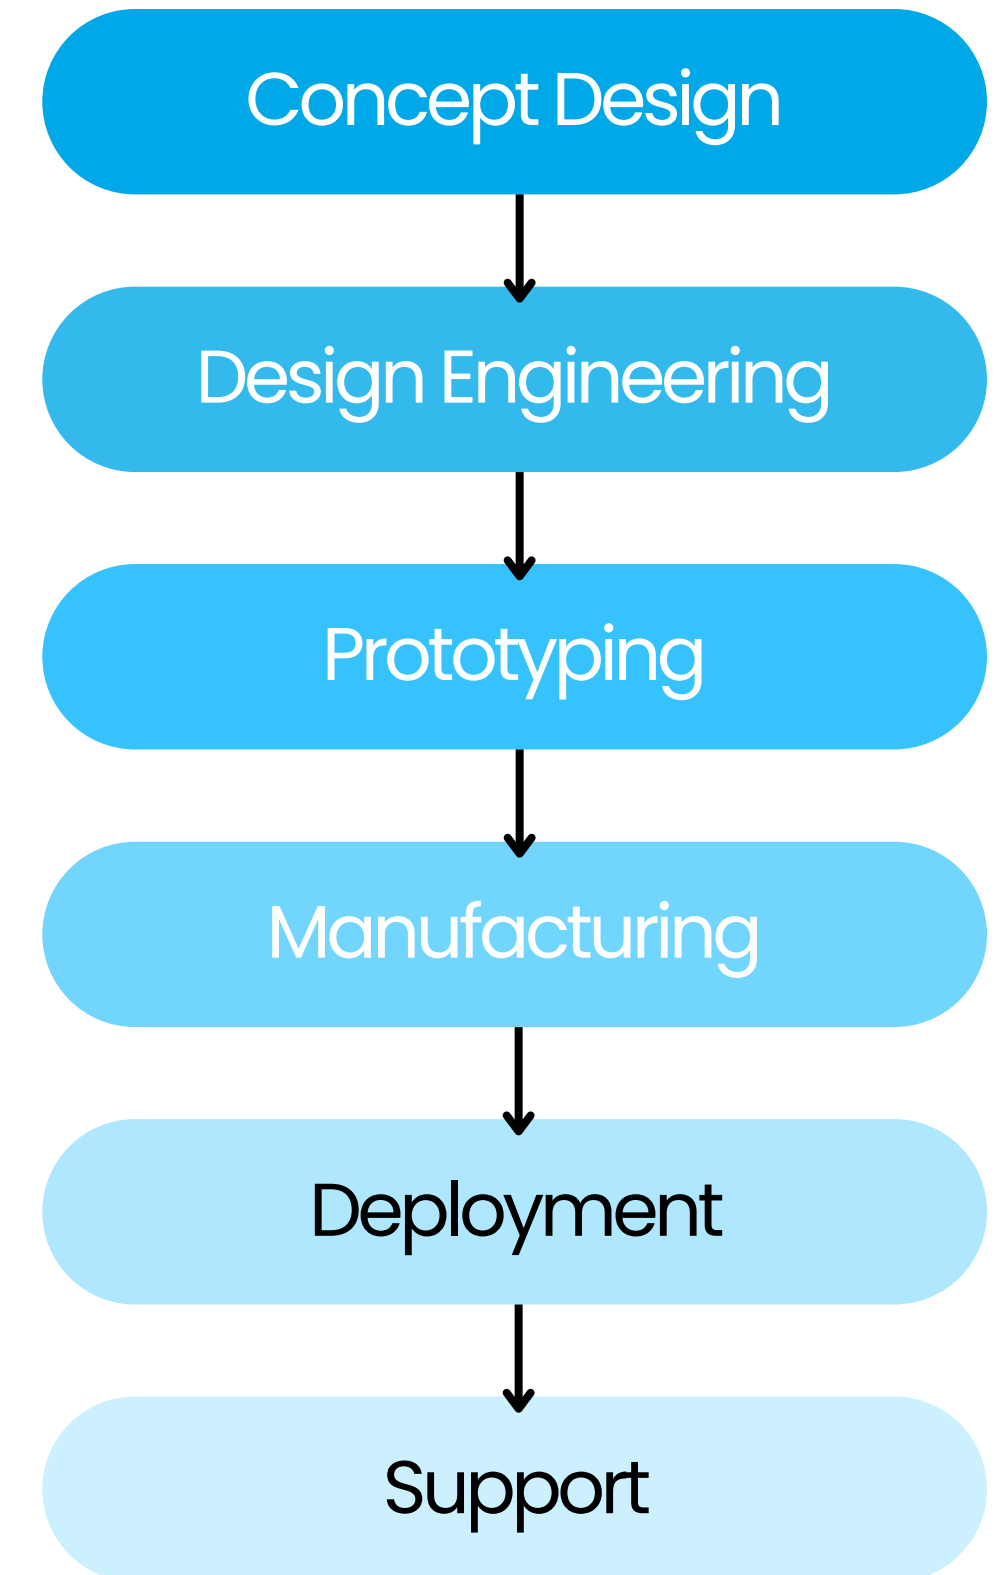

Assembly

Integrated Solutions

With 30+ years of experience, Integra delivers seamless end-to-end product solutions, from concept to deployment.

Our in-house design and advanced manufacturing, underpinned by circular economy principles, ensure innovative, production-ready outcomes. We also partner with trusted suppliers for non-sheet metal needs.

Clients proceeding to manufacture with us receive a 60% rebate on design and prototyping costs.

Digital Solutions

Manufacturing Digitalisation

Serving as the central hub for data-driven decision making, the Integra K4.0 Kiosk revolutionises industrial processes by integrating advanced technologies into everyday operations to maximise efficiency.

- + Manufacturing Execution System
- + Machine Monitoring
- + 3D Experience
- + Digital Twin

Digital Advertising & Interactivity

We work with industry leading service providers to curate captivating digital ecosystems that enhance customer interactions, brand presence, and align with the livery of your brand.

- + Interactive Experience Apps
- + Content Management
- + Remote Monitoring
- + National Support

Our Success Team

- + Industrial Design
- + Product Design Engineering
- + Mechanical Engineering
- + Mechatronics Engineering
- + Manufacturing Engineering
- + Electrical Engineering
- + Business Management
- + Sales & Marketing
- + Student Internships
- + Unskilled: On-the-Job Training
- + Mentors & Advisers
- + Collaboration with universities
