A New Chapter in the EverEscents Organic Hair Care story

EverEscents Organic Hair Care offers a pure and natural Organic hair care range that is plant based using certified organic ingredients merged from the abundant Australian environment.

For more than 17 years, EverEscents has consistently set the standard for professional hair care in Australian Salons and led the way for others to follow.

*Julia and Luke Charters
Owners*

Our dedicated team are among the most skilled and accomplished professionals in their fields, at the forefront of innovation in our industry. EverEscents has been the pioneer of ethical, sustainable, high performance haircare products and through transparency and honest effective formulas have built a steadfast reputation for excellence, with performance that is second to none.

Our passion is driven by our commitment to offer a salon quality range of Organic and natural hair care products that are great for you, great for the planet and that truly perform. There is nothing else like EverEscents on the hair care market.

As our environment and surroundings evolve, so must our brand aesthetics to reflect and emanate the beauty and evolution of our industry landscape, and to remain current in our position of industry leaders.

Introducing EverEscents 'Elevation' - A new chapter in the EverEscents Organic Hair Care story.

The same premium quality formulas you know and trust, with a renewed visual to work in perfect harmony with our ever-evolving environment.

Inspired by the natural beauty of our Earth's textures, scenery and terrain, in our 18th year, EverEscents moves into its own with a luxurious new look and feel.

Pure. Organic. Australian.

The EverEscents research and development team have discovered many new and innovative ways to develop modern product formulas that harness the power of Certified Organic ingredients. Our beautiful products have been hand crafted and refined in the laboratory of a Certified Organic factory in Australia.

EverEscents products contain at least 75% and up to 96% Certified Organic ingredients.

EverEscents is 100% Australian Made & Owned with all products being manufactured in a Certified Organic factory in Australia.

EverEscents is a Vegan Friendly Certified company and offers a range of products that comply to Vegan requirements. For more information visit www.safecosmeticsaustralia.com.au

The team at EverEscents have a passion for ethical and cruelty-free manufacturing. To show our commitment, EverEscents has obtained official accreditation from Safe Cosmetics Australia. To find out more go to www.safecosmeticsaustralia.com.au

EverEscents is concerned with the devastation caused by the deforestation occurring due to the production of palm oil and therefore we choose not to use ingredients that may be derived from palm oil wherever possible. EverEscents is also a contributing member of The Australian Orangutan Project and have adopted an orphan Orangutan named Popi. To find out more go to www.orangutan.org.au

EverEscents is committed to reducing our carbon footprint and having a positive impact on our climate and environment. We are proud to purchase one tree every business day of the year, helping to reduce the amount of carbon in the atmosphere. We also support Carbon Neutral's Plant-a-Tree program by planting a new native Australian tree for every new salon who stocks our products. That's over 500 trees planted every year! To read more about Carbon Neutral's amazing work, go to www.carbonneutral.com.au

We have custom designed our bottles to enable you to refill and re-use your bottles rather than disposing and purchasing a whole new product.

We are so thrilled to announce that after much research, testing and trialling, we have transitioned our plastic, refillable EverEscents bottles to 100% recycled land waste plastic.

EverEscents Brings You Truth In Labelling

EverEscents Organic Hair Care products feature labels that include clear information never before seen on any other hair care brand. Each label clearly states the Vegan status, amount of Certified Organic content and the purpose of each ingredient chosen.

'Buyer beware!' – Look out for other products that claim to have removed a toxic ingredient yet have simply replaced it with another less known toxic ingredient! If you see 'Paraben free' on a label look out for these replacements;

- * DMDM Hydantoin = Formaldehyde preservative
- * Diazolidinyl / Imidazolidinyl Urea = Formaldehyde preservative
- * Methylisothiazolinone / Methylchloroisothiazolinone = toxic preservative

Luke and Hayley at Camp Quality Headquarters

For over 17 years EverEscents has been supporting Camp Quality by donating 10c from every product sold. Camp Quality is an Australian charity giving kids facing cancer the chance to be kids again. Alongside Camp Quality, we believe kids impacted by cancer should have every opportunity to thrive.

Camp Quality programs and services help families build optimism and resilience through community, education and fun. They are there for kids (0-15) dealing with their own cancer diagnosis, or the diagnosis of a sibling, parent, or carer, every step of the way.

As a corporate supporter of Camp Quality, EverEscents encourages everyone to help make a difference. Check them out at www.campquality.org.au

Our Range

Safe, effective formulas harnessing the natural power of Certified Organic ingredients merged from the abundant Australian environment.

organic lemon & sandalwood CLEANSER

Gently cleanses & balances scalp with virtually no lather

A luxurious no-lather cleanser designed to remove product build up and clarify the hair and scalp with a lower pH level than traditional shampoos. EverEscents Cleanser gently opens the hair cuticle to allow for effective cleansing, whilst preserving the condition and structural integrity of the hair. Featuring the aromatic and healing benefits of Lemon-Scented Tea Tree and Sandalwood essential oils with Certified Organic Avocado Oil and Shea Butter, EverEscents Cleanser is skin care for the scalp.
