COMPANY PROFILE

"POWERED BY FORCES FITNESS"

Forces Fitness respectfully acknowledges the Traditional Custodians of the land on which we operate, and we pay our respects to Elders past, present, and emerging. We honor the rich traditions, cultures, and histories of all Aboriginal and Torres Strait Islander peoples and recognize their ongoing connection to the land, skies, and waters. As an Indigenous-owned company, we are committed to fostering respect, collaboration, and shared opportunities that uphold the values of community and cultural integrity.

2025

EXECUTIVE SUMMARY

Forces Fitness, a **100% Indigenous-owned** and Australian Made Certified company under the Forces Group Australia umbrella, delivers **deployable** gym, recovery, and storage infrastructure across Australia and the Pacific. We specialise in mobile solutions for **Defence**, emergency services, mining, and remote operations — with **rapid-deployment** containers engineered for performance in extreme conditions. Through our Indigenous-owned supply chain and partnership with Mob Box, every project delivers lasting wellbeing, operational readiness, and **RAP-aligned** impact.

Forces Group also operates a full-service Container **Modifications** Division, offering end-to-end design, engineering, and construction of **bespoke** containerised solutions — including accommodation units, site offices, training pods, and custom infrastructure. With **in-house** capabilities and strategic manufacturing partnerships, we deliver tailored turn-key units that meet specific site, climate, and operational requirements.

PRODUCT RANGE – DEPLOYABLE INFRASTRUCTURE

Fit-for-Purpose. Built for the Field.

All systems are plug-and-play and designed for minimal site prep.

"Explore our range of deployable gym lockers, storage units, and add-on systems designed for mission-readiness, anywhere."

INDIGENOUS OWNERSHIP, IMPACT & PROCUREMENT ALIGNMENT

Forces Fitness is a proudly **100% Indigenous-owned** and Supply Nation certified business, built on a foundation of cultural integrity, performance, and purpose.

Our Indigenous heritage informs every solution we deliver — from design to deployment. We integrate Indigenous knowledge systems into our infrastructure, creating scalable, community-aware solutions that reflect our connection to land, health, and resilience.

As a verified Indigenous business, Forces Fitness is eligible under the Australian Government's **Indigenous Procurement Policy (IPP)**. We help government agencies, Defence, and corporate clients meet their RAP and social procurement targets while delivering fit-for-purpose, mission-ready infrastructure.

We embed Indigenous employment, procurement, and **partnerships** at every level of our operations — ensuring every project creates meaningful cultural and economic impact.

“FOUNDER SPOTLIGHT”

Meet Our Founder – A Story of Strength, Culture & Innovation

Harrison Lee-Schell is the proud KaraJarri founder of Forces Fitness. Born and raised on Larrakia land in the Top End, Harrison's journey spans professional sport, elite coaching, firefighting, and innovation.

After competing at the international level in tennis and mentoring Indigenous youth through the **Evonne Goolagong Foundation**, he earned qualifications in human movement, sports science, and nutritional medicine — later opening a gym in Darwin to train young athletes holistically.

His experience as an **aviation rescue firefighter** gave him insight into the physical demands of frontline workers, inspiring him to develop Australia's first mobile strength-based gym trailer and deployable gym container — launching Forces Fitness to serve Defence, remote teams, and communities in need.

Today, Harrison leads a company that blends culture, performance, and purpose — proving that Indigenous innovation belongs at the forefront of infrastructure, wellness, and industry.

“Forces Fitness was born from experience — not just business.”
