

Clear Water Tanks

Steel

Liner Tanks

COLORBOND® WOODLAND GREY

Sizes range from 27,000 to 408,000 litres with a choice of COLORBOND® or ZINCALUME® steel.

COLORBOND MONUMENT

The choice is Clear ...

Tanks are formed and rolled from quality materials at our facility in Manildra NSW

Walls are manufactured from rigid corrugated steel with a 200mm overlap for strength and longevity

Tank liners are Australian made from durable polypropylene fabric that is water tight

Tanks are constructed to withstand harsh Australian conditions with UV resistant materials used

Our tanks come with a 20 year warranty and are installed by a professional and trade qualified team

About ClearWater

ClearWater Tanks manufacture and construct a range of corrugated steel tanks with internal liner.

When Ben and Sam Allcorn purchased ClearWater Tanks in 2011 they had a clear vision for the business ... to provide the highest quality products that are durable and long lasting; as well as support long term sustainability through water capture, containment and delivery.

Whilst ClearWater Tanks has been in business for over 50 years; originally it focused on manufacturing concrete water tanks.

With changes in the demand for concrete tanks, Ben and Sam introduced COLORBOND® and ZINCALUME® steel liner tanks to the product offering.

The demand for ClearWater's steel water tanks has been so high that they're gradually phasing out concrete tanks due to installation time and the cost of delivery.

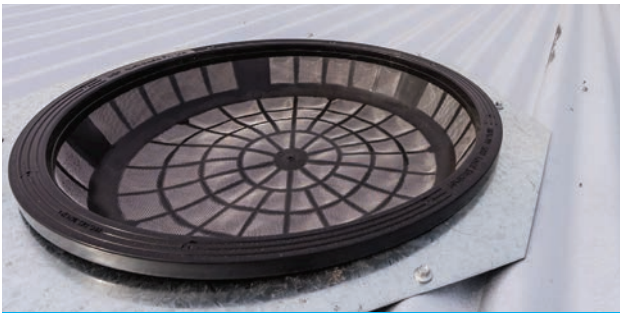

A water tank made from COLORBOND® or ZINCALUME® steel with our Australian made liner is not only cost effective to install, but are strong and an ideal solution for large storage requirements.

With a range of colours available ... they can be colour-matched to suit surrounding infrastructure making them aesthetically pleasing in residential and commercial environments.

The choice is Clear ...

Your ClearWater tank includes ...

Leaf Basket

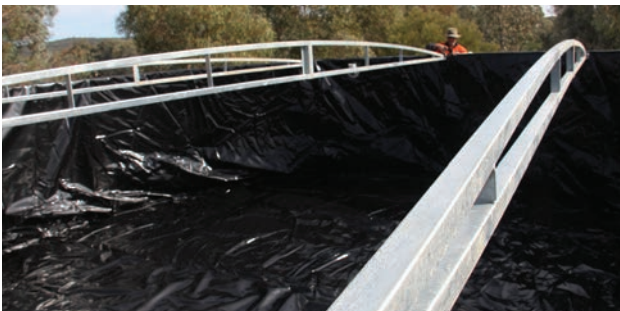

4" Overflow

Lockable Manhole

2" Outlet & Valve

Galvanised Roof Trusses

Construction at your site

- Corrugated steel walls & roof
- Roof trusses, hot-dipped galvanised
- Australian made polyfabric liner
- 1 x 2" outlet and valve
- 1 x 4" overflow
- 1 x leaf basket OR 50mm inlet
- 1 x lockable manhole
- Bolt fascia

Tank liners ...

- Innovative and high-strength material
- 100% water-proof and water-tight
- Polypropylene fabric
- Durable layered coating with woven base
- Meets food standards for the secure storage of clean and safe water
- Manufactured to Australian Standards

Standard Tank Range

MODEL	GROSS CAPACITY	DIAMETER	HEIGHT	PAD SIZE WIDTH
TANK	LITRES	METRES	METRES	METRES
CLT27	27,784	4.01	2.2	6.01
CLT43	43,369	5.01	2.2	7.01
CLT62	62,411	6.01	2.2	8.01
CLT84	84,908	7.01	2.2	9.01
CLT111	111,137	8.02	2.2	10.02
CLT140	140,580	9.02	2.2	11.02
CLT173	173,479	10.02	2.2	12.02
CLT209	209,833	11.02	2.2	13.02
CLT249	249,644	12.03	2.2	14.03

Tank shown with optional dust and vermin proofing; a type of foam which is sandwiched between roof and tank to prevent pest and contaminant entry via small spaces and gaps

Available options* ...

- 50mm inlet
- 50mm outlet with valve
- Water level indicator
- External / internal ladder
- Dust & vermin proofing
- Valve with Storz coupling for fire outlet
- Custom fittings

* Not included in standard price

When size matters ...

We understand that not all needs are met by a standard tank range ... so we've introduced the midline range (2.9 metres high) and highline range (3.6 metres high) to accommodate those requiring more litres on the same standard footprint.

Midline Tank Range

MODEL	GROSS CAPACITY	DIAMETER	HEIGHT	PAD SIZE WIDTH
TANK	LITRES	METRES	METRES	METRES
CLT57M	57,169	5.01	2.9	7.01
CLT82M	82,269	6.01	2.9	8.01
CLT111M	111,924	7.01	2.9	9.01
CLT146M	146,499	8.01	2.9	10.01
CLT185M	185,310	9.02	2.9	11.02
CLT228M	228,677	10.02	2.9	12.02
CLT276M	276,599	11.02	2.9	13.02
CLT329M	329,076	12.02	2.9	14.02

Highline Tank Range

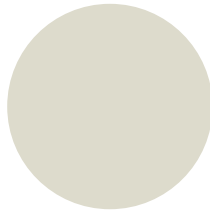

MODEL	GROSS CAPACITY	DIAMETER	HEIGHT	PAD SIZE WIDTH
TANK	LITRES	METRES	METRES	METRES
CLT70H	70,968	5.01	3.6	7.01
CLT102H	102,127	6.01	3.6	8.01
CLT138H	138,940	7.01	3.6	9.01
CLT181H	181,408	8.01	3.6	10.01
