THE HOME OF INDUSTRY LEADING BRANDS

ABOUT AGBOSS GROUP

AgBoss Group was formed in 1991 in the border region of Albury-Wodonga. We have always had a connection with the land and people that work the land.

The company started with a small number of product lines. We worked extremely hard to build a quality range of products, whilst developing relationships within the agricultural merchandise community.

The agricultural industry has been through many changes over the years, but we have always continued to support the industry by developing new and innovative products, along with providing great personal service.

We have continued to build a wider range of products, specialising in the production and distribution of our own core range of quality agricultural and plastic products, including the **Maxx**, **AgBoss**, **Vet-Tec** & **Puncture Shield** brands, along with the promotion and distribution of the **Talon** and **Kilsfoot** brands, we are a valuable supply partner for your business. Last year due to the growth in the AgBoss brand.

Last year due to the growth in the AgBoss brand, we made several transformational changes in the business. Firstly, we changed our name from Fjord International to AgBoss Group Pty Ltd and appointed new directors in Scott Jensen & Howard Morey.

These changes bring a new and fresh approach to the business, along with continued growth and product development. You will see this new style developed into the winter tool range.

We will continue to develop, innovative, high quality products that are designed and made by us in Australia or sourced from selected overseas manufacturers, all produced to keep working, year after year.

Farmers all over the country know from experience, the reliability and durability of our products, making them much better value than other inferior imports.

At AgBoss customer feedback is very important to us. Over the past 10 years this feedback has led to the continual development of the **Maxx**, **AgBoss**, **Vet-Tec**, & **Puncture Shield** brands. In the development of these brands, we have not swayed from our core principles;

Practical Products for Practical People.

Talon Ant Gel - 5g

Talon Ant Gel - 5g

Talon[®]

Description

The first ant product on the market in a gel format that can be applied both horizontally and vertically. Ants are immediately attracted to the gel which is then transferred by the ants to the brood and queen of the nest, ensuring effective control.

- Kills queen and destroys ants in nest
- Clear, non staining, odorless gel
- For indoor and outdoor use
- Low toxicity to user
- Easy to use syringe

Demand CS Insecticide - 1000ml

Demand CS Insecticide - 1000ml

Description

A broadspectrum insecticide with fast knockdown and excellent residual properties. Using advanced technology, this product has 12 month indoor residual activity and up to 3 months outdoors. No odour, stains or visible residue. Performs on most surfaces, including glass, brick and timber. Longer lasting protection, less applications and less chemical.

- Very cost effective
- Microencapsulated insecticide for long life
- iCAP technology
- Uses less chemical

RODENT CONTROL

AgBoss Mouse Corner Bait Station

AgBoss Mouse Corner Bait Station

Talon®

Description

Can be used indoors or outdoors and in both wet and dry conditions. Their durability provides excellent extended activity against repeated rodent infestation, especially against weather elements (outdoors) or for fixed baits in roof voids and garages (indoors).

- Highly attractive to rodents
- Kills rats and mice with single feed
- Can be nailed in place
- Very cost effective
- HACCP certified

GP Batteries

QUALITY

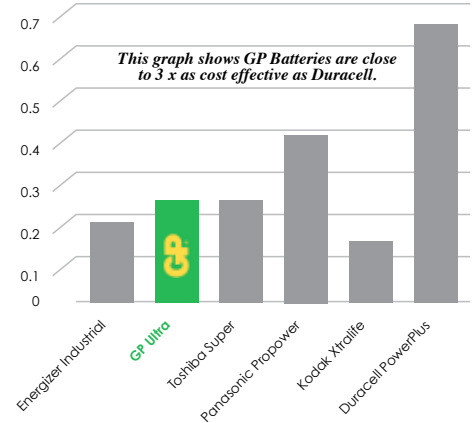

GP, Europe's best kept secret, achieving high quality & performance by utilizing the world's most highly automated battery manufacturing facility to develop & produce their battery range. As can be seen from the study's below by Battery Showdown & BitBox show that GP batteries more than hold their own against other well-known brands, beating the direct competition in Duracell and Energizer.

mAh for Batteries at 1,000 Ah Draw

Cost (Global Ave GDP) per mAh

Branding & Who is GP?

All batteries are sold with the most up to date packaging, counter display and branding options available. We can also provide POS material for any of the products supplied.

Without exception the range that is offered by AgBoss/GP has been carefully chosen to best suit the rural & hardware merchandise sectors. Not only does GP provide a comprehensive range, their packaging, bulk & singular options and POS material is an offering that will compliment your store. The carefully selected range will assist in your sell through rates, provide an increased financial benefit and stock turn rate applicable to your store.

Supply & Service

As the exclusive distributor for GP in this market, AgBoss is committed to keeping higher stock quantities. Coupled with our great customer service, we are 100% confident that we can support your store.

Description

Super bright compact strobe or rotating beacons deliver the durability of maintenance free LED technology and greater visibility, providing increased safety. Our LED beacons produce more light output than incandescent lamps whilst drawing a fraction of the current. Available in quad flash or rotating patterns with 3 bolt fixed or vacuum magnetic mounts, these beacons are weatherproof and maintenance free.

- Compact LED strobe
- Multi-volt 10-30V input & low current draw
- Maintenance free
- Tough ABS housing and sealed polycarbonate lens
- Weatherproof
- Magnetic Pad or 3 bolt fixing mount
- Curly cord with cigarette lighter plug.
- ECE approved for strobe pattern

CALF FEEDERS

vet-tec (3 speed) Calf Drinker - 2.5L

vet-tec (3 speed) Calf Drinker - 2.5L

vet-tec Teat Assembly t/s 733100

Description

2.5 litre 3 speed Calf Feeder. When you get a fast drinker, switch to '2' and let them drink. When you have a weak or premature-born calf, align switch vertically or '1' and let them take milk as they can. The three speeds control the air inflow to the bottle, and thus the milk outflow. The wide 70mm-diameter neck allows for easier filling and cleaning. Wide base for maximum stability when standing.

Description

Fight dehydration quickly and safely by drench feeding. Recommended procedure for rehydration of stressed cattle. Easy to use, single person application. Comes with teat.

OUR PRODUCT GUARANTEE

At AgBoss we make great products. Living and working in the harsh Australian environment means that products need to be durable, so we design our products with reliability in mind.

In fact, we are so confident about our superior products, that every AgBoss manufactured product that is purchased by you from an Authorised AgBoss Dealer, throughout Australia, is covered by a lifetime guarantee.

AgBoss will replace any product over its lifetime that shows a manufacturing defect, with the same or an equivalent product provided it is returned with proof of purchase. All you will pay is the return freight.

See Website for our terms & conditions.

AGBOSS CHARITY WORK

Many of our customers would already be aware that we lost our son and company employee Ricky Jensen to leukemia in July 2010. Ricky was a fit and healthy young man, when struck down by this awful disease.

After we received so much support and help from various organisations during Ricky's 10 month battle with cancer, as a company we have chosen to support these wonderful charities, including the Leukemia Foundation, Cancer Council NSW & Relay for Life.

We are most grateful to our customers who have donated to this cause and we will continue to make this a focal part of our journey going forward.
