# Overwrought Garden Art

Founded in 2006 Overwrought Garden Art is a business dedicated to creating beautiful handmade decorative metalwork of all kinds. Owner and Artisan, David Dawson, has a background in welding and a passion for design. With partner Karen they have built that passion into the thriving business that is Overwrought garden art.

Originally with a focus on making Gates, the range has since expanded to now include wall art, garden sculptures, furniture, fire pits, bird baths and privacy screens.

Using a Combination of traditional blacksmithing and contemporary metalworking, each item is hand crafted and proudly Australian made

Overwrought's creations can now be seen in Blampied, Central Victoria, where Karen and David have created Gallery and Sculpture Garden extending over 5 acres.

## Sculpture

Made from Mild steel  
Rusted and sealed
