# Rod Bender

Suspended ceiling rod bending tool

## Features:

- Can be bench mounted for large jobs or used unmounted for small jobs
- Easy to use
- 2 to 3 times stronger bends
- Up to 6 rods bent at each operation saves job time
- Rods of any length can be bent without having to slide full length of rod
- Consistent bend length means rods can be pre-cut to length
- Consistent bend angle means rods sit properly in hangers
- Hardened tool steel bending blade for maximum life
- Teflon bronze bushes for smooth operation and long life
- Handle removable for ease of transport and when mounted to prevent bumping into it
- Up to 25mm x 5mm flat mild steel bar or aluminium bar up to 30mm x 5mm can be bent for making brackets

*Easily create sharp bends*

**List price:** \$599 (inc GST)

*Insert up to six rods*

*Swing lever over and back*

*Rods are now bent and ready to install*
