

SHARING AUSTRALIA'S FLORAL GIFTS

welcome...

to the wonderful world of Bell Art. Through our new product innovations, our aim is to continue to increase the awareness and appreciation of the magnificent native flora of Australia. Showcasing the talents of our founder and one of Australia's foremost still-life floral artists, Meryl Bell, our products encapsulate the unique forms and beauty of Australian flora in all its exquisite detail, colour and realism.

As always, all of our products are proudly 100% designed and made in Australia, and wherever possible, utilise green design principles in printing, waste minimisation, paper sources and product recyclability.

Thank you for your enthusiasm and interest in our products. We hope you enjoy this range and we look forward to bringing you many new exciting products in the future.

Keep blooming!

Amanda Legovich
Owner | Bell Art Australia

Epacris impressa - Common Heath

'Many Australian artists have made us visually aware of the vastness of landscape, the light and colours of the country, but there are also many surprises and pleasures to be found in the intricate structure of Australian plants and their vibrant colouring. If my paintings make people stop for a moment to look, enjoy and wonder, then I have succeeded.'

ARTIST & FOUNDER OF BELL ART
1940 - 2009

ABOUT MERYL & BELL ART

Born in Bridgetown, Western Australia, Meryl Bell began painting Australian native flora in 1974 using oils and techniques similar to those of the great 17th century Dutch floral artists. Creating all of her works from real life, Meryl's superbly realistic images express their brilliant colour and forms with exceptional clarity and botanical accuracy.

Throughout her travels, Meryl would gather references and work closely with botanical experts in order to gain insight into the attributes of species. Meryl worked with fresh flowers with each major painting taking many months, even years, to complete. At times, she would use a single-hair paintbrush to enable her to capture the exquisitely fine detail of her subjects.

As one of Australia's foremost still life floral artists, Meryl's paintings are featured in notable private collections around the world.

Bell Art evolved from Meryl's desire to capture Australian native flora and share their unique beauty with the world. Bell Art gives us all the opportunity to enjoy what she discovered.

It began with the design, printing and selling of one card more than 35 years ago. Today, her remarkable legacy of over 200 magnificent artworks has been adapted to an exquisite range of aromatics, exclusive gifts and stationery for all to enjoy.
