

Why Hemp?

Here at Bohemi Handcrafted we are big believers in ALL things natural for our health & well-being ...this certainly doesn't stop with us humans!

Our range of pet accessories are created with your dogs health & the environment in mind. We use Hemp & GOTS Organic Cotton for our products, making them sustainable and non toxic.

All items are handcrafted in our home workshop located in NSW, this means what you are buying is a unique, high quality product made with love & a minimal carbon footprint.

NOT SO FUN FACT... Toxins from fabric manufacturing can linger in a garment for many years even after washing it over & over. These toxins constantly leach out & are usually in direct contact with our skin.

Our pets are creatures of nature but these days they're often bombarded with our chemical heavy lifestyles & end up suffering illnesses as a result.

HEMP HAS AN EXTREMELY HIGH TENSILE STRENGTH, ITS BREAKING STRAIN IS ONE OF THE HIGHEST YOU WILL FIND.

It's strong, durable, hypoallergenic, anti microbial, UV resistant & will not deteriorate in salt water. Hemp is sustainably grown without the need for pesticides or herbicides & takes very little water, it's great for the soil & bees love it!

Nature really has provided us with the best fibre out there.
