About Us:

ICEPAK Australia is proud to be an independent family owned Australian Company. We are the sole manufacturer of the fully insulated SOF-PAC® delivery bag and the certified and branded 'Australian Made and Owned' FLEXIBLE ICE BLANKET.

Our products are used by over 400 Meals on Wheels services and other food delivery organizations throughout Australia. The SOF-PAC® delivery bag and FLEXIBLE ICE BLANKET allow their kitchens to conform to HACCP food safety guidelines for meal deliveries for extended periods of time where it is critical to maintain temperatures 5°C and below for cold food and the SOF-PAC® delivery bag helps maintain temperatures above 60°C for hot meals.

Our **SOF-PAC®** delivery bag and FLEXIBLE ICE BLANKETS are also used by hospitals and pharmaceutical logistic companies in Australia and New Zealand to transport serum, vaccines, blood samples, plasma and medical supplies.

Our Technology:

FLEXIBLE ICE BLANKET is the original and most hygienic ice product to keep food cold for meal deliveries, fruit, vegetables, Milk and dairy products and meats. You can use 'Flexible Ice Blankets' to wrap around perishables when doing your home shopping, children's lunches or to prolong food staying frozen longer, especially when travelling.

- The 'Flexible Ice Blanket' film is a food grade and non-toxic product approved by HACCP. The liquid in 'Flexible Ice Blanket' is also food grade, non-toxic and will not contaminate any product should the cells be punctured.
- The 'Flexible Ice Blanket' is made up of separate cells which distribute the cold evenly eliminating any hot spots.
- The Flexible Ice Blanket is filled with pure, clean water

SOF-PAC Bags

Fully insulated containers for temperature sensitive deliveries.

When transporting chilled meals or vaccines, the Sof-Pac® bags will maintain a stable temperature of between 2°C - 8°C no matter how hot the external temperature is at the time.

SOF-PAC Bags are also an efficient way of maintaining the temperature of hot meals being delivered to customers. They are specifically designed to maintain internal temperatures above 60°C during deliveries.

Products:

Sof-Pac® Insulated Bags | Premium Cooler Bags

Safety By Design ... Not By Chance'

FULLY INSULATED CONTAINERS FOR
TEMPERATURE SENSITIVE DELIVERY

When transporting chilled meals, the Sof-Pac® bags will maintain a stable temperature of between 2°C - 8°C no matter how hot the external temperature is at the time. The Sof-Pac® bags are also specifically designed for the delivery of hot meals, maintaining the internal temperature above 60°C during delivery.

We also help client's design special packaging for those out of the ordinary products that require special handling and critical temperature maintenance.

Benefits of Sof-Pac®

Sof-Pac® Insulated delivery container for delivery of temperature sensitive products; hot or cold

- Designed to hold temperatures without additional passive or active support or in conjunction with 'Flexible Ice Blankets' for extreme temperatures
- Unit knocks down flat for easy cleaning, storage and bulk return.
- Washable with ordinary soap/bleach and water
- Available with side handles and shoulder straps

Sof Pac Bag Accessories

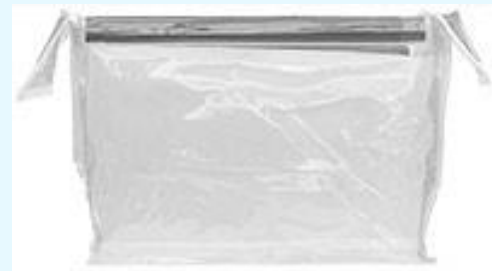

SOF-PAC® Shelf

- With the Sof-Pac® Shelf and Flexible Ice Blankets you can layer your commodities for optimum temperature control
- Insulates each compartment whilst the bag is opened
- No more meals sinking into those below!
- The bottom meals will stay as hot or as cold at the END of your delivery run as when you first put them in

SOF-PAC® Insert

- Stops spillage into Sof-Pac® Bags
- Easily removed for cleaning
- Washable with soap and water
- Hygienic and food safe

SOF-PAC® Soup Cup Holder (Version 1) - fits SP009

3 level soup cup holders holding - 24 cups

SOF-PAC® Soup Cup Holder (Version 2) - fits SP009

2 soup cup holders holding – 8 cups
This allows 8 cups and 8 meals to be transported in the SP009

Flexible Ice Blanket

- Transport cold and frozen food.
- Great for lunch boxes, camping, picnics, sporting events, travelling.
- Spread between food layers for maximum effect.
- Pre-chill or freeze food prior to putting in container.
- Wrap Ice Blanket around items in esky or container.
- Freeze ice blanket overnight prior to use.
- Hygienic, non-absorbent, re-usable and washable in mild detergent.
- Made up with 100% water
- Non-toxic, Food safe product.
- Cut to preferred size

NON-TOXIC ✓ NON-ABSORBENT ✓ RE-USE ✓ RE-FREEZE ✓

Flexible Ice Blanket Information:

- 1 kilo of 'Flexible Ice Blanket' can be spread over a larger area than 1 kilo of blue/gel packs
- Distributes cold evenly eliminating any hot spots
- Can be cut to size for all your cold storage needs
- More sanitary than ice, is non-absorbent so bacteria can't grow
- HACCP approved non-toxic food grade film
- Re-usable over and over again
- Easy to clean
- Washable in mild detergent/bleach
- Will not contaminate food if ruptured

Grey Nylon & Custom Made Food Delivery Bags

Grey Insulated Nylon Bags – have been designed and manufactured with extra insulation, heavy duty liner, double zip and plastic card name/address holder on top, for hot and cold meal delivery.

These bags are for short term delivery without multiple openings. They are for the extra meal delivery over weekends and public holidays and as the standby. These bags are used by Restaurants and Fast Food companies to deliver meals ordered for home delivery ensuring HACCP

obligations are met.

Grey Nylon Bags are always in stock and can also be printed with any Company Name and LOGO

There is no minimum quantity - Set-up and Printing costs do apply
