

PRODUCT: SURFACE CLEAR

TARGET: PONDS, DAMS, LAGOONS & LAKES

AQUATIC TECHNOLOGIES

The
Aquatic
Weed
Control Experts

The safe and effective way to reduce the re-establishment of free-floating aquatic matter in ponds, dams, lagoons and lakes.

SURFACE CLEAR

- Reduces the re-establishment of free-floating aquatic matter
- Lines the surface of the water with a thin silicone barrier
- Fast-acting effects
- Lasts between 4-6 weeks

Surface Clear helps to limit the risk of the re-establishment of new free-floating aquatic matter in your water. This silicone-based liquid disperses across the water surface to give fast-acting effects.

Once you've cleared your body of water, **Surface Clear** helps to reduce the likelihood of re-establishment.

SAFE FOR

Swimming, Irrigation, Stock, Fish & Pets.

Helping to reduce the re-establishment of free-floating aquatic matter, this silicone-based liquid disperses across the water's surface to give fast-acting effects.

HOW CAN I CONTROL FREE-FLOATING AQUATIC MATTER?

Free-floating aquatic matter can be hard to get rid of. It establishes rapidly in large numbers, so reducing their re-establishment requires some added effort.

Affecting the surface tension of water by creating a silicone 'barrier', this pourable solution prevents the re-occurrence of new free-floating aquatic matter by stopping it from floating - providing the peace of mind you need in ensuring your water's surface stays as clear as possible.

Surface Clear works perfectly in conjunction with **Orange Oil** and approved herbicides such as **AQ200** that aim to clear the water's surface.

The Aquatic Weed Control Experts

Surface Clear

Application Rates:

Where to Use	How Much To Use	How to Apply	When To Apply
Large Pond, Dams and Lagoons	100mL per 100m ² of water surface area.	Pour directly from the container into the water body to be treated.	Apply every 4-6 weeks, or as required.

For Best Results: When used in conjunction with **Orange Oil**. Apply **Surface Clear** 2 hours after you have applied **Orange Oil**. When applying after the application of approved herbicides, such as **AQ200**, apply **Surface Clear** 4 days afterwards at a rate of 100mL per 100m² of water surface area.

**Always read the product label for directions.*

SUITABLE FOR

Large Pond

15,000L - 50,000L
0 - 50m²

Small Dam

50,000L - 1ML
50m² - 2,000m²

Large Dam

1ML - 10ML
2,000m² - 10,000m²

Lagoon
