Dredger Winches

Neumann Equipment dredge winches are designed and manufactured from high quality components for extreme environmental conditions, providing years of dependable service. We specialise in winches used on dredgers and in dredging operations, which may include:

- Ladder lift winches.
- Slew winches.
- Tail winches.
- Barge winches.
- Positioning winches.

All of our dredger winches designs are verified using Finite Element Analysis (FEA), manufactured and tested to meet marine industry standards. They are Built Tough and Designed to Last!

Standard Inclusions:

- High quality reduction drive gearboxes.
- Fail-safe spring applied hydraulic release brake.
- Winch drums are supported with a fully sealed self-aligning bearings (where applicable).
- All components are grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine marine coatings.

Available Options:

- Line pull capacities – up to 30,000kg.
- Hauling line speeds – up to 50 metres per minute.
- Stainless steel construction.
- Drive motor types – electric or hydraulic.
- Hydraulic or electric control systems.
- Slew winch manifolds and valves to assist in holding the dredge cutter against the face improving production.
- Guarding to suit specific site requirements.
- Mechanical drum locking pin.
- Available in port and starboard configuration.

Please contact us by phone or email to discuss your dredger winch requirements.
