

VERI SHADES®

Where innovation meets style and functionality.

A contemporary take on a classic window covering, Veri Shades® combines the versatility of a vertical blind with the elegant appeal of a soft window furnishing.

Featuring the premium EOS® Helix Vertical Track system and soft Veri Shades fabric, the Hunter Douglas Veri Shades collection provides the perfect balance of style, durability and child safety features to complement any home residential or commercial application.

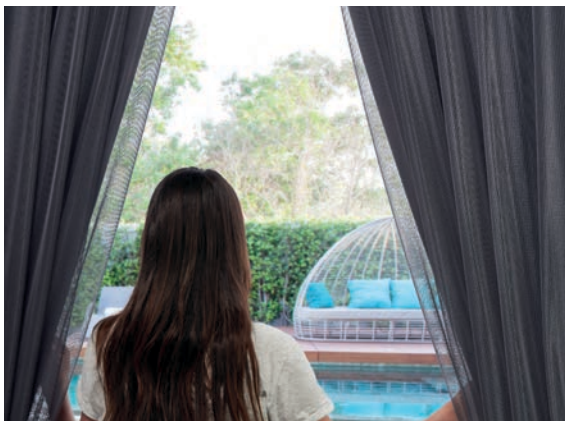

Unique Design

Individually curved fabric vanes feature an alternating light filtering and room darkening fabric panel. Simply turn the fabric vanes for sheer light control or total privacy.

Child Safe

Designed with child safety in mind, Veri Shades fabric has no connecting bottom chains or weights, providing a safer home environment for children and pets.

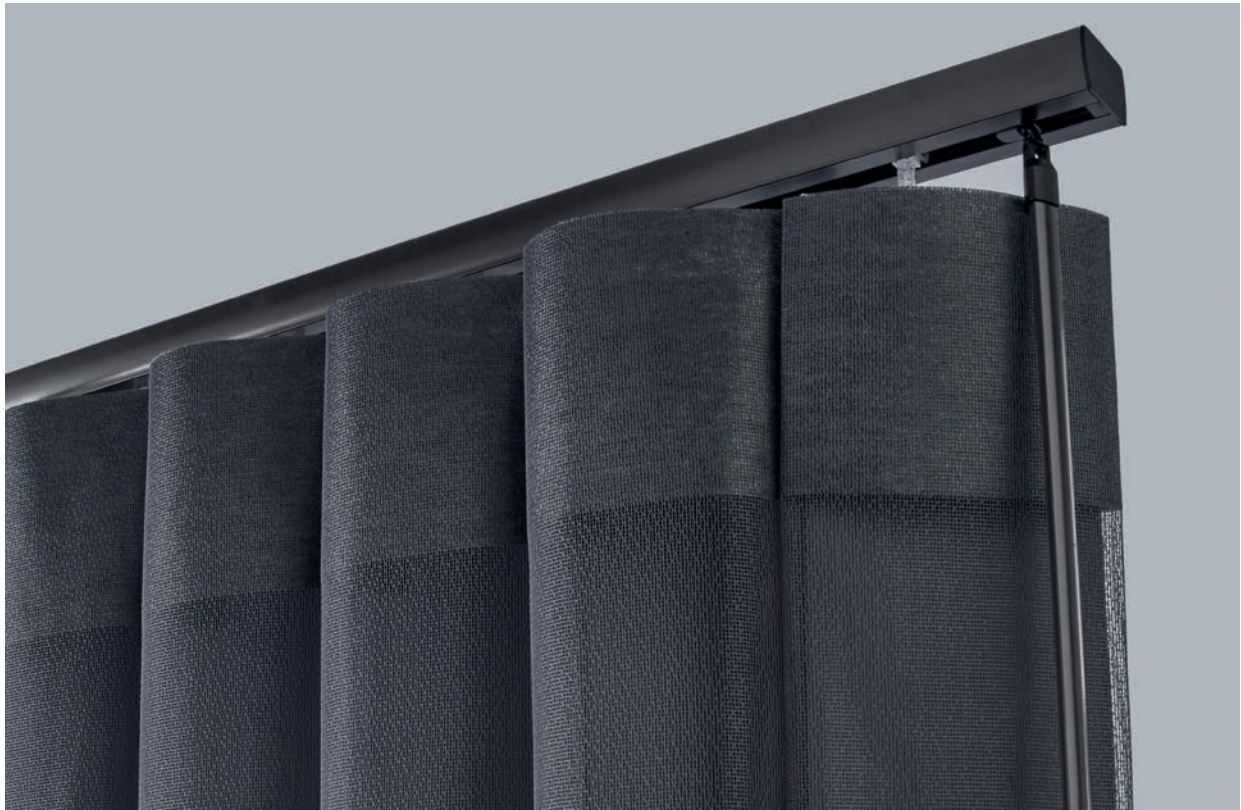

Functional Living

For seamless indoor-outdoor living, conveniently walk through the individual fabric vanes whether they are opened or closed.

Easy Breezy

Free from noisy connecting chains and bottom weights, Veri Shades operates quietly and softly settles back into position.

Featuring the Australian designed and developed EOS Helix Vertical System; Veri Shades offers a premium hardware and operating system for ultimate performance, durability and smooth control.

Available with two operating options: Chain and Cord or Traversing Wand, Veri Shades fabric can be easily tilted with option to stack to the left, right or split stack for an unobstructed view.

Traversing Wand

Provides effortless and smooth operation control (available in 4 colours: white, anodised, gunmetal and black). Simply use one hand to tilt the blades and draw across.

Chain & Cord

Featuring a thick and heavier duty beaded chain and cord (available in 4 colours: white, ivory, grey and black). The beaded chain allows for the blades to be tilted, whilst the cord is used to stack the shade.

Add a new level of depth and dimension with Veri Shades. The soft fabric collection provides a timeless colour pallet, subtle textures and durable qualities to offer a contemporary window covering design to suit any interior space.

Veri Shades are available in two fabric ranges: Standard and Mist. The Standard fabric range provides a modern geometric mesh aesthetic and is available in 6 on-trend colours, while the Mist fabric range offers a timeless net pattern in 7 colours. Both fabric ranges incorporate subtle neutral and monochrome tones inspired by modern interior design.

Composition

100% Polyester Woven Fabric

Colour Fastness

7-8 Blue Scale

Size Limitations

Drop: 1000mm-3600mm

Width: 1000mm-5950mm

Care & Cleaning

Dusting

Surface dust can be easily removed using a clean soft brush or feather duster.

Spot cleaning

To remove dirt and grime, simply wipe the fabric blades with a sponge soaked in lukewarm water. If marks are still visible, add a little mild detergent and gently dry with a clean cloth.

Hand wash

Veri Shades fabric can be lightly hand washed and dried, and can also be ironed with a cool iron or steamed to remove creases. (To remove Veri Shades fabric, gently unhook the fabric blade by lifting up and out of the hook).
