

About ...

LOCALLY OWNED

Everything Amarese Designs does and will continue to do is inspired by the love of all ocean life, textiles, supporting local economies and creatives that are here in Australia! Finally and most importantly the little fun, sun, and water-loving offspring I have who have led to the present point in time.

Vita PL / Fully Lined Swimwear

Vita PL by Carvico: our high performance, sustainable techno-fabric made of polyester. Made of 100% recycled polyester from pre and post-consumer materials, it is perfect for transfer printing. Available in several captivating neon colours boasting excellent colour fastness values, Vita PL is ideal for the creation of swimwear items which are expected to be resistant to chlorine, suntan creams and oils and for long-lasting sportswear.

Soft and sensual, **Embrace liner** has been developed using Recycled REPREVE® Polyester yarn from single-use bottles destined for landfill. It is also Global Recycle Standard Certified.

Recycled Zips

Little Parts. Big Difference.

NATULON® zippers made from chemically recycled polyester (post consumer), it is perpetually recyclable. Through our NATULON® fastening products, we have reduced the need for new materials by employing the most advanced chemical recycling technology.

Exclusive Designs & Sustainable Printing

All prints are exclusive and owned by Amarese Designs. Created by talented graphic designers based in Sydney. Prints are then used on VitaPL fabric using a sustainable sublimation printing process through a Sydney owned and operated business.

Sustainable Packaging

Eco-friendly postage bags, stickers, custom-designed tissue paper and hygiene liners have all been outsourced to ensure the environmental impacts of production and end of life have been considered
