Glow inside & out with the goodness of emu oil!

Emu oil is Mother Nature's ultimate multi-purpose remedy for healthier skin, hair, scalp and inflammatory issues such as arthritis, sore joints and muscle pain. Its unique transdermal composition can deeply penetrate all 7 layers of the skin. This allows the high levels of omegas (3, 6 & 9) and vitamins A, D, E, F & K2 in emu oil to be absorbed into the skin, muscles, joints & hair follicles to fight inflammation & repair cells.

Single-sourced premium 100% Australian emu oil

We work directly with a passionate, ethical & sustainable farm to source all our emu oil. It is simply the most biologically active & nutrient dense emu oil available for superior results.

All natural ingredients

Farmed & made in Australia

Ethical & sustainable

Recyclable packaging

No chemicals or nasties

Free-range & single-source

A gentle natural solution ideal for sensitive skin

Emu oil and the other natural ingredients in all OzWellness products are free from harsh chemicals, preservatives, sulphates, pet-chems and other artificial nasties. This makes them ideal for use on all skin types, especially sensitive or compromised skin, babies, children and anyone conscious about what they put on their body.

Emu oil is hypoallergenic, non-comedogenic and bacteriostatic. It has been shown to be effective in more than 60 medical & scientific trials covering its use across multiple skin, hair and inflammatory conditions.
