OUTDOOR-RATED SLIMLINE
HOME BATTERY SYSTEM

RedEarth

ENERGY STORAGE

Inverter in here!

Single-phase
5kW & 10kW
Three-phase
12kW
15kW - early 2026

Batteries in here!

Up to eight x 5.6kWh
Troppo Ultra batteries –
44.8kWh capacity

Short on space and time? Meet **Gecko**

Slim system. Fast install. **Big** power.

Fits on a **single pallet** – fast installations!

Plug 'n' play – everything included in the box

EV charger and **energy trading** ready

Suitable for **hybrid, on-grid and off-grid**

Australian made and owned

All-in-one slim design.
No mess. No fuss.
Plug 'n' play.
Built in Brisbane.

You asked, we listened.

The brand new Gecko features everything that is important to you. No messy cables; everything included in the box; easy and quick to install; single pallet delivery; small footprint; on and off grid applications; integrated with our state-of-the-art software; and, of course, Australian made.

Need something bigger?

Combine Gecko with a custom AC Combiner Box to double continuous power output.

Power your **whole** home.

 Scalable, modular design that can grow as your needs change. Up to eight batteries per unit

 Available in single or three phase configurations

 World-class power storage solutions for both homes and businesses

 Unique and versatile power hub which is able to integrate grid, generator and load ports

 No grid, no worries – in grid outages, Gecko can power your home or start your generator in off-grid systems

 Fully hybrid option (grid-connected + backup/island mode)

 AC-coupled system – Easily connect existing solar to the Gecko

 RedEarth PPP-ready. Trade your energy, charge your EV and so much more

Specifications

Aussie made for Aussie conditions.

Built to last. **Outdoor-rated with a 10-year warranty.**
 Designed, engineered and assembled in Australia.
 Support Australian made with RedEarth.

Note: Specifications subject to change with new product developments

Engineered for installers.

Gecko has been meticulously engineered by our Brisbane team with you in mind. Hassle-free, quick installations, with everything provided for you. When we say “plug ‘n’ play”, we mean it.

Single pallet delivery

Cut your install time down! Packaged to make assembly seamless and easy.

Package dimensions:
L1165 x W1165 x H1840 (mm)

AC Breakers and Access

3-Phase example shown

DC Breakers and Access

3-Phase example shown

Simple three-step assembly

1. Mount battery module to the floor and wall (top box).
2. Attach inverter module and mount to the wall (middle box).
3. Install up to eight Troppo batteries (remaining boxes).

 You are ready to complete the electrical connections and commission the system. Easy!

Control your power with your own **Private Power Plant**

Gecko is fully integrated with our proprietary software, helping you control your own energy consumption and production.

Optimum Monitoring

Reliable 4G monitoring and system health checks

Remote Control

Use your battery like a remote

Energy Trading

Access wholesale pricing and our trading algorithm

Smart EV Charging

Flexible car charging (incl. V2G)

Peer to Peer

Share your excess power with family and friends

Blackout Protection

Turn on Disaster Protection Mode

Smart Load Control

Manual or automatic control of high power load items

Peak Shaving

Reduce your dependence on grid during high load times
